**Thursday,  
November 19, 2015  
7:00-8:00 p.m.  
Dessert Reception  
Immediately  
Following at the  
Student Center  
Auditorium  
900 Oakwood Ave  
Ypsilanti, MI  
48197**

## ***"Your Epigenome: DNA is Not Necessarily Your Destiny"***

Dr. Dana Dolinoy leads the Environmental Epigenetics and Nutrition Laboratory at the University of Michigan School of Public Health and serves as Associate Professor in the Environmental Health Sciences and Nutritional Sciences departments.

The Dolinoy Lab investigates the role played by environmental exposure to chemical, nutritional, and behavioral factors that can alter gene expression and affect health; this has included the potentially harmful effects of many common compounds, such as bisphenol A (BPA).

Her research is conducted using animal models, human clinical samples, and human population studies. Her work has recently been recognized as a model approach that may allow for direct assessment of the impact of environmental exposure on human disease.

**For more information please contact:  
The Graduate School at  
734-487-0042 or [graduate\\_school@emich.edu](mailto:graduate_school@emich.edu).  
This event is free and open to the public.**
