I wish to develop an Individualized Studies Program (ISP) for the following reason(s):
(Check those which apply.)

The ISP degree better suits my career/educational objectives than a regular academic program.

I am unable to complete my current program of study due to my grade-point average, program requirements, etc.

My departmental advisor suggested that I pursue an ISP.

My career plans have recently changed due to outside circumstances.

I wish to design an ISP undergraduate degree to so I can graduate as quickly as possible and enter a Master's degree program.

I am requesting that Eastern Michigan University allow me to pursue a bachelor of science degree in the Individualized Studies Program. I understand that this program will replace prescribed majors and minors; I must still fulfill all other requirements for graduation as described in the University's Undergraduate Catalog. I also understand that this degree is a non-teaching degree and that there is no assurance of career/job placement once I have completed this ISP degree.
