ASD 101

AN INTRODUCTION TO AUTISM SPECTRUM DISORDER

ASD 101 is a brief one time, 90 minute training that offers education, tools, and resources to those interested in learning more about autism spectrum disorder. This course is free and offers many benefits for those who work or volunteer with the ASD population or plan to the future. Topics covered include, characteristics of ASD, behavioral processes and management, evidence based interventions, and strategies to help those who live with ASD. This training is great for family members, friends and other community members who are interested in learning more!
