PARENT CHILD INTERACTION THERAPY

Evidence-based therapy to help you and your child

Appropriate for children aged 2 – 12 with difficult behaviors: whining, disobeying, swearing, noncompliant, stubborn, and more

Learn how to actively manage your child’s behaviors and to spend more time enjoying each other. Get live coaching from experienced therapists and learn while you practice.

Parent Child Interaction Therapy

No more meltdowns! Manage behaviors and enjoy your time with your child

Therapy program with decades of research support

Lead by experienced therapists
