Independent Auditor's Report

To the Board of Regents Eastern Michigan University

Report on the Financial Statements

We have audited the accompanying financial statements of Eastern Michigan University, a component unit of the State of Michigan (the "University"), and its discretely preseted component unit, as of and for the years ended June 30, 2016 and 2015, and the related notes to the financial statements, which collectively comprise Eastern Michigan University's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and in accordance with the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement. The discretely presented component unit was not audited under *Government Auditing Standards*.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Eastern Michigan University and its discretely presented component unit as of June 30, 2016 and 2015 and the respective changes in its financial position and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Regents Eastern Michigan University

Emphasis of Matter

As discussed in Note 1 to the basic financial statments, effective July 1, 2015, the University adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 72, Fair Value Measurement and Application. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of pension funding progress, and schedule of contributions, as identified in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplemental information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Eastern Michigan University's basic financial statements. The schedules of net position by fund group and revenues, expenses, and changes in net position by fund as of and for the years ended June 30, 2016 and 2015 are presented for the purpose of additional analysis and are not a required part of the basic financial statements.

The schedules of net position by fund group and revenues, expenses, and changes in net position by fund are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of net position by fund group and revenues, expenses, and changes in net position by fund are fairly stated in all material respects in relation to the basic financial statements as a whole.

To the Board of Regents Eastern Michigan University

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 1, 2016 on our consideration of Eastern Michigan University's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Plante & Moran, PLLC

November 1, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion and analysis of Eastern Michigan University's ("University") financial statements provides an overview of the University's financial activities for the years ended June 30, 2016, 2015, and 2014. Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with University management.

The University's financial report include three financial statements: the Statement of Net Position, the Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows. These statements were prepared in accordance with criteria established by the Governmental Accounting Standards Board (GASB) for determining the various governmental Universities to be included in the reporting entity (GASB Statement No. 61). These criteria include significant operational or financial relationships. Based on the application of the criteria, the University has one component unit -- the Eastern Michigan University Foundation. The Foundation's statements are discretely presented as part of the University's reporting entity in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB).

Eastern Michigan University offers a supportive, accessible, affordable, and quality learning and living environment. The University's distinct mix of comprehensive academic resources, strong community initiatives, focus on education first, and nationally recognized undergraduate research achievements set it apart.

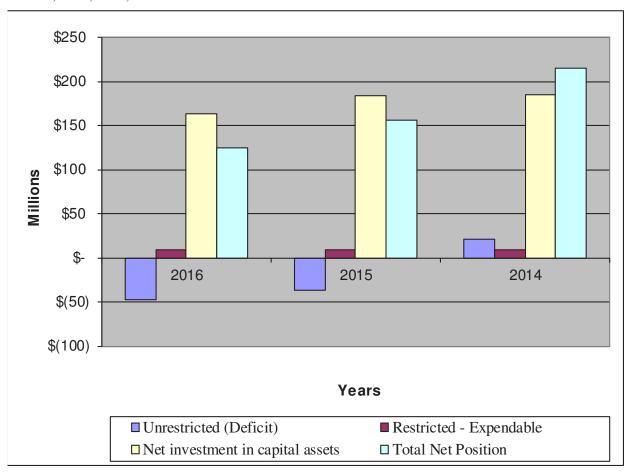

Founded in historic Ypsilanti in 1849, the University occupies 880 acres on the main campus with 122 buildings. In addition, there are off-campus locations in Detroit, Livonia and Traverse City for a student body of over 22,000 students.

Financial Highlights

The University's financial position at June 30, 2016 reflected assets and deferred outflows of \$581 million, and liabilities and deferred inflows of \$456 million. The University adopted GASB Statement No. 68, Accounting and Financial Reporting for Pensions and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date in 2015. Statement No. 68 requires governments participating in a multi-employer defined benefit pension plan to recognize their proportionate share of the unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. Statement No. 71 is a clarification to GASB 68 requiring a government to recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. In accordance with the statement, the University has reported a Net Pension Liability of \$49.7 million as a change in accounting principle adjustment to Unrestricted Net Position as of July 1, 2014.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following chart provides a graphical breakdown of net position by category for the fiscal years ended June 30, 2016, 2015, and 2014.

The University's pension liability was \$75.5 million and \$50.9 million at June 30, 2016 and 2015, respectively. As a result, the University has a deficit in unrestricted net position of \$47.7 million and \$37.2 million at June 30, 2016 and 2015, respectively. The difference of \$27.8 million at June 30, 2016 is committed for identified future needs including contractual obligations, debt service, student loans, capital outlay, insurance reserves, future retirement costs, and academic programming needs.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Financial Statements

The University's financial report includes the Statement of Net Position, the Statement of Revenues, Expenses, and Changes in Net Position, and the Statement of Cash Flows.

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private sector institutions. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. Net position is one indicator of the current financial condition of the University and is measured by assets plus deferred outflows minus liabilities and deferred inflows.

Following is a summary of the major components of the net position and operating results of the University for the years ended June 30, 2016, 2015, and 2014:

	
Assets	
	44.2
·	44.3
Noncurrent assets:	460.1
Capital assets - Net of depreciation 462.3 454.5	463.1
Other <u>60.0</u> 65.5	57.3
Total assets \$ 570.8 \$ 573.0 \$	564.7
Deferred Outflows	
Deferred Outflows \$ 10.1 \$ 7.4 \$	0.0

MANAGEMENT'S DISCUSSION AND ANALYSIS

Operating Revenues

Operating revenues include all transactions that result from the sales and/or receipts of goods and services such as tuition and fees, housing, and other auxiliary units. In addition, certain federal, state and private grants are considered operating if they are a contract for services and not for capital purposes.

Student tuition and fees revenue increased as a result of a Board of Regents approved tuition and mandatory fee weighted average increase of 7.8 percent effective Fall 2015, offset by additional scholarships.

The following is a graphic illustration of operating revenues by source:

Operating Revenues by Source

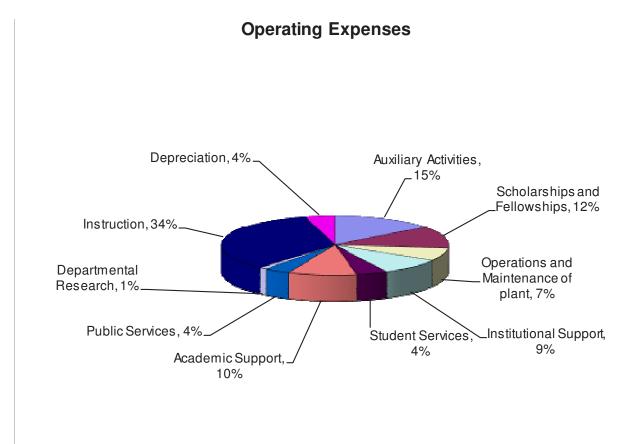

MANAGEMENT'S DISCUSSION AND ANALYSIS

Operating Expenses

Operating expenses are all costs necessary to perform and conduct the programs and primary purposes of the University. Operating expenses were up modestly, reflecting increases in the costs of compensation, utilities, student financial aid, library acquisitions, and academic programming.

The University is committed to providing financial support to students. The University has long sponsored its prestigious National Scholars program which attracts some of the brightest and most promising students.

The following is a graphic illustration of operating expenses by source:

Nonoperating Revenues

Nonoperating revenues are all revenue sources that are primarily non-exchange in nature. They consist primarily of state appropriations, Pell grant reimbursements, investment income (including realized and unrealized gains and losses), and restricted development funds that do not require any services to be performed. Nonoperating revenue was significantly impacted by the following factors:

• State operating appropriations decreased \$0.7 million to \$71.9 million in 2016 and increased \$5.0 million in 2015 to \$72.6 million due to the State's economy. In 2016, due to market conditions, two of the interest rate swaps associated with variable-rate debt were deemed to be ineffective

MANAGEMENT'S DISCUSSION AND ANALYSIS

hedging transactions. As a result, the change in fair value of the interest rate swaps at June 30, 2016 reduced investment income by \$21.3 million.

- In 2016 and 2015 interest expense was reduced by \$5.6 million and \$2.6 million, respectively, due to the amortization of the liability related to the interest rate swaps.
- Investment income from operations decreased by \$0.4 million to \$0.3 million in 2016 and decreased \$3.6 million to \$0.7 million in 2015 due to market conditions.
- Pell grants decreased \$1.3 million to \$31.6 million in 2016 and \$1.4 million to \$32.9 million in 2015.

Capital Contributions

Capital Contributions consist of items that are typically nonrecurring, extraordinary, or unusual to the University. Examples would be capital gifts, capital appropriations from the state or federal government, and transfers from related entities. Capital gifts amounted to \$0.1 million in 2016, \$0.6 million in 2015, and \$0.9 million in 2014.

Statement of Cash Flows

Another way to assess the financial health of the University is to look at the statement of cash flows. Its primary purpose is to provide relevant information about the cash receipts and cash payments of the University during a period. The statement of cash flows also helps users assess:

- The University's ability to generate future net cash flows
- Its ability to meet obligations as they come due
- Its needs for external financing

Cash Flows for the Years Ended June 30 (in millions)

	2016		2015		2	014
Cash Provided by (Used in):						
Operating activities	\$	(51.8)	\$	(49.4)	\$	(91.9)
Noncapital financing activities		123.4		110.5		107.3
Capital and related financing activities		(34.6)		(3.6)		(25.5)
Investing activities		(10.4)		(53.4)		9.6
Net Increase (Decrease) in Cash		26.6		4.1		(0.5)
Cash - Beginning of year		15.2		11.1		11.6
Cash - End of year	\$	41.8	\$	15.2	\$	11.1

Cash and Investments

Cash and investments, collectively, increased by \$6.4 million to \$69.4 million as of June 30, 2016 primarily due to an advance payment of \$10 million from the University Dining Services agreement with Chartwells Higher Education.

As of June 30, 2016, the University retrospectively applied Governmental Accounting Standards Board

MANAGEMENT'S DISCUSSION AND ANALYSIS

("GASB") Statement No. 72, Fair Value Measurement and Application. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. The University restated July 1, 2014 investments and capital assets to recognize the fair value of the golf course and conference center. The investments were increased by \$3,360,000 and the capital assets were decreased by \$4,811,132 as a result of implementing this standard.

The most significant components of cash flows provided from operating activities are tuition and fees, auxiliary activities, grants, and contracts. Net cash used in operating activities was \$51.5 million. To offset this, the net cash provided from non-capital financing activities, which consisted primarily of State appropriations, was \$123.3 million. This is compared to net cash used in operating activities in the amount of \$49.4 million and \$91.9 million for the years ended June 30, 2015 and 2014, respectively. Net cash provided by non-capital financing activities was \$110.5 million and \$107.3 million for the years ended June 30, 2015 and 2014, respectively.

Cash used by capital and related financing activities amounted to \$34.6 million in 2016, \$3.6 million in 2015, and \$25.5 million in 2014, primarily on capital additions.

Capital Assets

At June 30, 2016, the University had \$462.3 million invested in capital assets, net of accumulated depreciation of \$335.9 million. Depreciation charges totaled \$15.0 million for 2016 compared to \$15.4 million in 2015. In 2016, the University completed the Rackham project, Sculpture Studio renovation, and other projects to improve classrooms, residence halls, technology infrastructure, building energy efficiency, and security. Capital projects in progress at June 30, 2016 primarily include renovations to the Wise Residence Hall, the Energy Conservation project, additional Information Technology infrastructure replacements, and improvements to classrooms and security.

At June 30, 2015, the University had \$454.5 million invested in capital assets, net of accumulated depreciation of \$323.0 million. Depreciation charges totaled \$15.4 million for 2015 compared to \$15.7 million in 2014. In 2015, the University completed the McKenny Transfer Center, Fletcher audio and visual improvements, and other projects to improve classrooms, residence halls, technology infrastructure, building energy efficiency, and security. Capital projects in progress at June 30, 2015 primarily include improvements to Rackham, the Sculpture Studio, additional Information Technology infrastructure replacements, renovations in auxiliary units, and improvements to classrooms.

Debt and Derivatives

On June 25, 2015, the University issued \$155,000,000 of Term Loan and Total Return Swap. This loan refunded \$75,000,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2012A, and \$60,795,000 of General Revenue Variable Rate Demand Revenue and Refunding Bonds, Series 2012B and issued \$19,205,000 for new capital projects. In addition, the University received a premium payment of \$3,569,650 which will also be used for new capital projects. The \$158.6 million Total Return Swap is used to hedge the variable rate on the term loan.

On August 20, 2014, the University issued \$9,860,000 of General Revenue Refunding Bonds, Series 2014. These bonds refunded \$9,860,000 of General Revenue Build America Bonds, Series 2009D.

MANAGEMENT'S DISCUSSION AND ANALYSIS

At June 30, 2016, the University had \$251.8 million in obligations outstanding, versus \$254.3 million in 2015 and \$237.4 million in 2014. The remaining debt instruments are general revenue obligations of the University. Principal payments of \$2.6 million, \$2.5 million and \$2.3 million were made in 2016, 2015 and 2014, respectively.

Included in the outstanding obligations are four interest rate swap agreements with notional amounts of \$125.8 million as of June 30, 2016, 2015 and 2014, respectively. In 2015 the swaps were transferred to the Series 2015 Term Loan and Total Return Swap. This created a fifth swap of \$158.6 million that is wrapped around the original 4 swaps. Under GASB Statement Number 53, this created a synthetic termination event for the old swap agreements. Three of the swaps were deemed to be ineffective hybrid instruments as of June 30, 2016. All the swaps but one were deemed to be effective hybrid instruments as of June 30, 2015. As a result, the University has posted a \$21.3 million fair value liability, a current liability of \$2.8 million, a noncurrent liability of \$31.8 million, a deferred inflow of \$5.0 million and a deferred outflow of \$4.1 million as of June 30, 2016. The University posted a \$9.5 million fair value asset, a current liability of \$5.4 million, a noncurrent liability of \$34.6 million, a deferred inflow of \$12.8 million and a deferred outflow of \$2.3 million as of June 30, 2015. The University posted a \$13.5 million fair value asset, a current liability of \$2.6 million, a noncurrent liability of \$38.3 million, and a deferred inflow of \$13.5 million as of June 30, 2014.

The terms of the swap agreements call for the University to post collateral to the counterparty under certain conditions tied to the prevailing rating of the University and the mark to market valuations of the swaps. As of June 30, 2016, \$24.5 million of collateral was posted. No collateral was required to be posted as of June 30, 2015 and 2014, respectively.

For the University's \$125,795,000 of enhanced variable rate debt refinanced in 2009, the credit ratings assigned by Moody's Investor Services (Aaa/VMIG-1) were unchanged in 2016 from 2015 and 2014. Standard and Poor's ratings (AAA/A-1) were unchanged in 2016 from 2015 and 2014. For the University's \$102,380,000 of fixed rate debt, separate ratings were assigned by each agency for the insured portion of the debt and the uninsured portion. Moody's ratings were unchanged for the insured portion Aa2 and dropped from A1 to A2 for the uninsured portion. Standard and Poor's ratings were AAA/A-1 (insured) and BBB+ (uninsured). The highest achievable ratings are "Aaa" and "AAA", respectively. The University's capacity to meet its financial obligations is considered to be strong by the rating agency and reflects limited additional borrowing capacity as of June 30, 2016.

Pension Obligations

In 2015 The University adopted GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. In accordance with the statements, the University has reported a Net Pension Liability of \$49.7 million as a change in accounting principle adjustment to Unrestricted Net Position as of July 1, 2014. The balance of the net pension liability at June 30, 2016 and 2015 is \$75.5 million and \$50.9 million, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Deferred Inflows and Outflows

The University had \$5.5 million, \$17.7 million, and \$13.5 million of deferred inflows from interest rate swaps and pension obligations at June 30, 2016, 2015, and 2014, respectively. As of June 30, 2016, 2015, and 2014 the University had \$10.1 million, \$7.4 million, and \$0 of deferred outflows from interest rate swaps and pension obligations, respectively.

Funding for a Successful Future

Eastern Michigan University enriches lives in a supportive, intellectually dynamic and diverse community. Its dedicated faculty balance teaching and research to prepare students with relevant skills and real world awareness. The University is an institution of opportunity where students learn in and beyond the classroom to benefit the local and global communities.

The University's vision is to be a premier public university recognized for student-centered learning, high quality academic programs, and community impact. The focus remains on investing in its students and faculty, in academic quality, and in maintaining and improving facilities that enhance the learning environment for its 22,000 students.

Through diligent efforts at fiscal stewardship and strategic cost containment measures, the University has been able to be a state leader in tuition restraint, while still continuing to invest in facilities and programs that help students succeed in today's economy.

In February, the Board of Regents approved a \$30 million capital budget for 2016-2017, which reflected the University's continued emphasis on improving academic and student-related facilities, as well as, numerous energy conservation projects.

The State of Michigan, through its Capital Outlay Project Funding, approved the \$40 million renovation project for Strong Hall. Strong Hall is part of the Science Complex - a crucial academic facility on campus that houses 25 percent of the University's STEM lab classrooms. This project, along with the \$90 million addition and renovation of the Mark Jefferson Building completed in 2012, demonstrates the University's commitment to the sciences, and will result in first-class facilities on campus.

In June, the Board of Regents approved an in-state undergraduate tuition increase below that of the State of Michigan's tuition restraint cap. By doing so, the University qualified for additional appropriation support from the State. With this tuition increase, the University continued to invest in strong and high-demand academic programs while maintaining its commitment to provide students with a high quality education at an affordable price.

The Regents also approved a \$312 million general fund operating expenditure budget for fiscal year 2017. The budget reflected a \$4.7 million increase in University-sponsored financial aid over the previous year's budget, again fulfilling a goal to help make college affordable.

Eastern Michigan University's successful future depends on the collective efforts of its stakeholders. These efforts build on a solid foundation of exceptional academic programs that prepare students for real-world experience.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies

University - The University is an institution of higher education located in Ypsilanti, Michigan, and is considered to be a component unit of the State of Michigan (the "State") because its Board of Regents is appointed by the governor of the state of Michigan. Accordingly, the University is included in the State's financial statements as a discrete component unit. Transactions with the State of Michigan relate primarily to appropriations for operations, grants from various state agencies, and payments to state retirement programs for the benefit of University employees.

Basis of Presentation

The financial statements of Eastern Michigan University (the "University") have been prepared in accordance with generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB). The University has implemented GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements. The objective of this statement is to incorporate into the GASB's authoritative literature certain accounting and financial guidance that is included in the following pronouncements issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements: Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting research bulletins of the American Institute of Certified Public Accountants (AICPA), Committee or Accounting Procedure.

The University follows the "business-type" activities reporting requirements of GASB Statement No. 34. GASB 34 establishes standards for external financial reporting for public colleges and universities and requires that resources be classified for accounting and reporting purposes into the following categories:

- **Net Investment in Capital Assets** Capital assets, net of accumulated depreciation and outstanding principal balances of debt attributable to the acquisition, construction, or improvement in those assets.
- **Restricted, expendable** Net position subject to externally imposed constraints that can be fulfilled by actions of the University pursuant to those constraints or that expire by the passage of time.
- Unrestricted Net position not subject to externally imposed constraints. Unrestricted Net position may be designated for specific purposes by action of management or the Board of Regents (the "Board") or may otherwise be limited by contractual agreements with outside parties. The University has committed the unrestricted Net position to provide for identified future needs, such as debt service, contractual obligations, capital outlay, academic programming, and postemployment benefits.

These statements have also been prepared in accordance with criteria established by GASB for determining the various governmental organizations to be included in the reporting entity (GASB Statement No. 61, *Financial Reporting Entity: Omnibus*). These criteria include significant operational or financial relationships with the University. Based on application of the criteria, the University has one component unit.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

Component Units of the University - The Eastern Michigan University Foundatin financial statements are discretely presented as part of the University's reporting entity. These statements are prepared in accordance with generally accepted accounting principles as prescribed by the Financial Accounting Standards Board (FASB). The officers of Eastern Michigan University Foundation include certain University administrative officials and the University has controlling interest in the Foundation's board. The Internal Revenue Service has determined that the Foundation is tax exempt under Section 501(c)(3) of the Internal Revenue Code.

The Eastern Michigan University Foundation exists for the sole purpose of soliciting, collecting, and investing donations for the benefit of Eastern Michigan University. No modifications have been made to the Foundation financial statements included in the University's financial report. A complete copy of the audited financial statements of Eastern Michigan University Foundation is available at the Foundation offices located near the campus of the University.

Summary of Significant Accounting Policies

Cash and Investments - As a matter of cash management, the University invests substantially all of its cash in interest-bearing instruments. Investments are reported at fair value, based on quoted market prices, with changes in fair value reported as investment income in the statement of revenue, expenses, and changes in Net position. Cash equivalents consist of highly liquid investments with an original maturity of three months or less.

Inventories - Inventories consist primarily of supplies, food, pharmaceuticals, and bookstore items, and are stated at the lower of cost or market, with cost determined by the retail method.

Capital Assets - Capital assets are stated at cost if purchased or at appraised value at the date of the gift for donated property. Certain net assets have been designated to provide for significant repair and maintenance costs to residence facilities. Physical properties, with the exception of land, are depreciated on the straightline method over the estimated useful service lives of the respective assets. Estimated service lives are as follows:

Leasehold improvements12 to 20 yearsBuildings40 to 60 yearsEquipment5 to 10 yearsLibrary holdings5 to 10 years

Unearned Fees and Deposits - Unearned fees and deposits primarily include unearned tuition and fee revenue for future semesters, exclusivity contract unearned revenue, and agency balances held in custody for others. Retirement benefit costs are funded as accrued.

Interest Rate Swaps – The fair value of interest rate swaps deemed liabilities as of the date of termination of the related debt have been recorded as a liability that is being amortized over the life of the swap contracts

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

using the effective interest method. Amortization for the years ended June 30, 2016 and 2015 was \$5,598,653 and \$2,623,665, respectively, and is recorded as a reduction to interest expense.

Accrued Compensated Absences - Accrued compensated absences are comprised of the portion of unused sick leave accrued as of June 30 but not expected to be paid within one year. The portion of sick leave expected to be paid within one year and all accrued vacation leave are included in accrued payroll, taxes, and fringe benefits. The current portions of accrued sick leave and vacation leave were approximately \$400,000 and \$3,880,000 as of June 30, 2016, respectively. The current portions of accrued sick leave and vacation leave were approximately \$400,000 and \$3,819,000 as of June 30, 2015, respectively.

Deferred Outflows – In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future periods and so will not be recognized as an outflow of resources (expense/ expenditure) until then. Deferred outflows consist of accumulated changes in the fair value of hedging derivative instrument and pension obligations described in Note 6 and Note 9, respectively.

Deferred Inflows – In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future periods and so will not be recognized as an inflow of resources (revenue) until that time. Deferred inflows at June 30, 2016 include \$490,777 for funding received through state appropriations for contributions to the MPSERS pension plan after the measurement date and \$1,394 related to the pension plan described in Note 9. Deferred inflows at June 30, 2015 related to the pension plan described in Note 9. Deferred inflows also consist of accumulated changes in the fair value of hedging derivative instrument described in Note 6 as of June 30, 2016 and 2015, respectively.

Pensions – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPSERS) and additions to/deductions from MPSERS fiduciary net position have been determined on the same basis as they are reported by MPSERS. MPSERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expense when due and payable in accordance with the benefit terms. Related plan investments are reported at fair value.

Adoption of New Standards – As of June 30, 2016, the University retrospectively applied Governmental Accounting Standards Board ("GASB") Statement No. 72, *Fair Value Measurement and Application*. GASB Statement No. 72 provides guidance for determining a fair value measurement for reporting purposes and applying fair value to certain investments and disclosures related to all fair value measurements. The University restated July 1, 2014 investments and capital assets to recognize the fair value of the golf course and conference center. The investments were increased by \$3,360,000 and the capital assets were decreased by \$4,811,132 as a result of implementing this standard. The impact of this change was reflected as a change in accounting principle adjustment (\$1,451,132) to Unrestricted Net Position as of July 1, 2014.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

The GASB issued GASB Statement No. 68, Accounting and Financial Reporting for Pensions and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date. Statement No. 68 requires governments providing defined benefit pensions to recognize their unfunded pension benefit obligation as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. Statement No. 71 is a clarification to GASB 68 requiring a government to recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. The Statements also enhance accountability and transparency through revised note disclosures and required supplementary information (RSI). In accordance with the statement, the University has reported a Net Pension Liability of \$49.7 million as a change in accounting principle adjustment to Unrestricted Net Position as of July 1, 2014. This amount was based on the University's proportionate share of the net pension liability as of September 30, 2013 reduced by \$3.4 million of required contributions made after the end of the plan year, but before July 1, 2014.

Use of estimates - The preparation of the accompanying financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates

Auxiliary Activities - Auxiliary activities consist of the following as of June 30, 2016 and 2015:

	 2016	 2015
Operating Revenues:		
Auxiliary Activities, Gross	\$ 53,443,418	\$ 51,748,954
Less: Internal Sales	(597,263)	(465,097)
Less: Scholarship Allowances	 (7,846,930)	 (7,388,966)
Auxiliary Activities Revenue - Net	\$ 44,999,225	\$ 43,894,891
Operating Expenses:		
Auxiliary Activities, Gross	\$ 56,723,107	\$ 55,837,396
Less: Internal Sales	(597,263)	(465,097)
Less: Scholarship Allowances	 (7,846,930)	 (7,388,966)
Auxiliary Activities Expenses - Net	\$ 48,278,914	\$ 47,983,333

Operating and Nonoperating Revenues - The University's policy for defining operating activities as reported on the statement of revenues, expenses, and changes in net position is to report those activities that generally result from exchange transactions, such as payments received for providing services and payments made for services or goods received. Nearly all the University's expenses are from exchange transactions. Certain significant revenue streams relied upon for operations are recorded as nonoperating revenues due to their non-exchange nature, which include state appropriations and investment income. Restricted and unrestricted resources are spent and tracked at the discretion of the University's department within the guidelines of donor restrictions, if any. Federal Pell grant revenue is also classified as nonoperating. The amounts received for 2016 and 2015 are \$31.6 million and \$32.9 million, respectively.

NOTES TO THE FINANCIAL STATEMENTS

Note 1 – Basis of Presentation and Significant Accounting Policies (continued)

Reclassifications – Certain prior year balances were reclassified to conform with the current year presentation. In 2016 the University moved Intercollegiate Athletics activity from the General and Designated funds to the Auxiliary fund. The impact for the years ended June 30, 2015 and 2014, respectively, are shown below:

		General	Designated	Auxiliary	
Fiscal Year	· Category	Fund	Fund	Fund	Totals
2015	Revenue - Departmental Activities	\$ (1,826,501)	\$ (3,407,785)	\$ -	\$ (5,234,286)
2015	Revenue - Auxiliary Activities	-	-	5,234,286	5,234,286
2015	Expenses - Student Services	(13,683,439)	(1,471,760)	-	(15,155,199)
2015	Expenses - Operation & Maintenance of Plant	(327,745)	-	-	(327,745)
2015	Expenses - Auxiliary Activities	-	-	15,482,944	15,482,944
2015	Transfers	1,272,118	(1,549,339)	277,221	-

		General	Designated	Auxiliary	
Fiscal Year	Category	Fund	Fund	Fund	Totals
2014	Revenue - Departmental Activities	\$ (1,506,352)	\$ (2,465,402)	\$ -	\$ (3,971,754)
2014	Revenue - Auxiliary Activities	-	-	3,971,754	3,971,754
2014	Expenses - Student Services	(12,073,043)	(1,783,395)	-	(13,856,438)
2014	Expenses - Operation & Maintenance of Plant	(317,802)	-	-	(317,802)

2014	Transfers	224,066	(520,301)	296,235	-

Note 2 - Cash and Investments

The University utilizes the pooled cash method of accounting for substantially all of its cash and cash equivalents. The University's investment policy, as set forth by the Board of Regents, authorizes investment in securities of the U.S. Treasury and agencies, corporate bonds and notes, commercial paper, time savings deposits, Eurodollars and certain external mutual funds, separately managed funds and other pooled funds. Restricted cash and investments represent unspent bond proceeds utilized for capital projects and collateral associated with the fair value of hedging derivative instruments for the Total Return Swap of 2015. The University's investment objective is to preserve investment principle while deriving a reasonable return consistent with the prevailing market and economic conditions. Investment decisions are based on specific guidelines which incorporate quality, safety, diversity, and liquidity of funds.

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

Interest Rate Risk - As a means of limiting its exposure to fair value losses due to rising interest rates, the University's operating investment policy provides for a diversified portfolio comprised of short, intermediate, and long-term investments. Short-term investments are restricted to at least 50% of the portfolio in U.S. Government Securities and/or U.S. Government Agency issues. The asset allocation, as a percentage of the total market value of the investment pool, is targeted as follows:

		Permissable
Asset Class	Target %	Range %
Equity:	35%	20% - 50%
Domestic All Cap Equities	10%	5% - 20%
International Equities	5%	0% - 10%
Emerging International Equities	5%	0% - 8%
Global Equity	15%	10% - 20%
Fixed Income:	25%	20% - 50%
Core Fixed Income	5%	0% - 10%
Absolute Return Fixed Income	10%	5% - 15%
Emerging Market Debt	5%	0% - 8%
Global Multi-Sector Fixed Income	5%	0% - 10%
Global Asset Allocation / Risk Parity	20%	10% - 30%
-		
Alternatives:	20%	5% - 25%
Hedge Funds	10%	0% - 20%
Real Assets	10%	5% - 15%

The University is also exposed to risk indirectly since its mutual fund investees hold investments such as futures, options, and collateralized mortgage obligations (generally referred to as "derivatives"). This risk is minimal.

Credit Risk - Investment policies for cash and investments as set forth by the Board of Regents shall be to preserve investment principal while deriving a reasonable return consistent with the prevailing market and economic conditions. The weighted average credit quality is restricted to be no less than "AAA" (or its equivalent rating by two national rating agencies) for the short-term investment pool. There is no credit quality restriction for the long-term investment pool. At June 30, 2016 and 2015, the University's debt instruments (subject to fluctuations in interest rates) and related ratings consisted of the following:

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

	2016				2015	-	
	Mark	et Value	NRSRO Rating	Mark	et Value	NRSRO Rating	
Bond Mutual Funds:							
Corporate Bonds	\$	4,477,885	A	\$	8,355,746	A	
U.S. Government Agency Bonds		1,918,421			84,247		
Total	\$	6,396,306		\$	8,439,993		

The nationally recognized statistical rating organizations (NRSRO) utilized were Moody's Investors Services or Morningstar. The corporate bonds NRSRO rating is based on a weighted average of the individual investment ratings.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of the failure of the bank or counterparty, the University will not be able to recover the value of its deposits or investments that are in the possession of an outside party. The University's cash investment policy does not limit the value of deposits or investments that may be held by an outside party. Investments in external investment pools and in open-ended mutual funds are not exposed to custodial credit risks because their existence is not evidenced by securities that exist in physical or book entry form. All cash and cash equivalents are held in the University's name as of June 30, 2016 and 2015. As of June 30, 2016, the banks reported balances in the disbursement accounts at \$41,654,508. Of these balances, \$614,484 was covered by federal depository insurance and \$41,040,025 was uninsured and uncollateralized. As of June 30, 2015, the banks reported balances in the disbursement accounts at \$13,629,240. Of these balances, \$314,962 was covered by federal depository insurance and \$13,314,278 was uninsured and uncollateralized.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of investment in a single issuer. The University's investment policy provides that investments will be diversified within equity and fixed income securities as well as alternative investments so as to provide a balance that will enhance total return while avoiding undue risk concentrations in any single asset class or investment category. The diversification does not necessarily depend upon the number of industries or companies in a portfolio or their particular location, but rather upon the broad nature of such investments and of the factors that may influence them.

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

The following investments comprise more than 5% of the total investments portfolio as of June 30, 2016 and 2015:

June 30, 2016:	
Bank of Ann Arbor Trust Money Market	\$ 2,304,032
BlackRock Strategic Income - Instl	2,012,909
AQR Risk Parity II MV Fd	2,006,757
Standard Life GARS	2,002,672
SPDR Russell 3000 Fund	2,002,213
PIMCO All Asset Fund - Instl	1,948,459
Eaton Vance Hexavest Global Equity	1,373,331
Artisan Global Opportunities	 1,345,530
	\$ 14,995,903
June 30, 2015:	
Northern Institutional Government US Select	\$ 8,100,000
Vanguard Prime Money Market	7,130,769
Dreyfus Cash Management Institutional	7,119,086
Baird Aggregate Bond Fund Institutional	3,194,070
	\$ 25,543,925

Foreign Currency Risk - Foreign currency risk is the risk that changes in exchange rates will adversely affect the fair value of an investment. At June 30, 2016 and 2015, the University had \$3,571,497 and \$4,159,515, respectively, invested in mutual funds that have funds invested in various countries throughout the world and therefore, exposes the University to foreign currency risk indirectly. The University did not have any direct investments or deposits denominated in foreign currencies at June 30, 2016 and 2015.

Investments at the Eastern Michigan University Foundation are as follows:

		2016	2015
Corporate stocks	\$	220,599	\$ 285,941
Treasury/Federal securities		438,642	424,242
Certificates of Deposit (Long Terr	1	621,450	600,896

Land		612,334	612,334
Mutual funds		14,787,408	14,462,481
Commingled Funds - Equity		20,358,367	16,684,968
Commingled Funds - Fixed Income	2	6,334,182	10,095,587
Commingled Funds - Balanced		14,303,349	13,691,201
Hedge Funds		8,785,580	9,449,789
Private Equity Funds		542,649	
Total	\$	67,059,560	\$ 66,362,439

NOTES TO THE FINANCIAL STATEMENTS

Note 2 - Cash and Investments (continued)

Net gains/losses from security transactions for the years ended June 30, 2016 and 2015 are as follows:

	2016	2015		
Unrealized (loss) gain	\$ (753,527) \$	452,837		
Realized (loss) gain	(618,270)	120,521		
Total	\$ (1,371,797) \$	573,358		

Trustee and brokerage fees associated with the maintenance of the endowment securities portfolio were \$373,502 and \$358,693 for the years ended June 30, 2016 and 2015, respectively, for Eastern Michigan University Foundation. For recording purposes, these fees have been netted with investment income.

Note 3 - Receivables

University accounts receivable consist of the following as of June 30, 2016 and 2015:

	2016	 2015
Sponsor accounts	\$ 2,233,338	\$ 3,535,978
Student accounts	5,097,576	5,330,441
Charter school appropriation	4,447,125	4,258,686
Third party tuition	234,812	862,049
Other	4,613,893	 5,802,855
Subtotal	16,626,744	19,790,009
Less allowances for possible collection losses	(1,160,772)	 (1,233,420)
Accounts receivable - Net	\$ 15,465,972	\$ 18,556,589

In addition, the University has student loans receivable of \$7,896,098 and \$8,334,823, net of the related allowance of \$358,666 for both June 30, 2016 and 2015.

Included in contributions receivable for the Foundation are the following unconditional promises to give at June 30, 2016 and 2015:

	2016			2015		
Contributions receivable:						
Gross contributions promised	\$	1,826,059		\$	2,052,556	
Less allowance for uncollectibles		(365,212)	_		(474,347)	
Subtotal		1,460,847			1,578,209	
Less unamortized discount		(11,355)			(5,653)	
Net unconditional promises to give	\$	1,449,492		\$	1,572,556	
Amounts due in:						
Less than one year	\$	1,008,203		\$	1,786,596	
One to five years		817,856			265,460	
More than five years		0			500	
Total	\$	1,826,059		\$	2,052,556	

NOTES TO THE FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements

The University categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The University's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

The University has the following recurring fair value measurements as of June 30, 2016 and 2015:

University Assets and Liabilities Measured at Fair Value on a Recurring Basis at June 30, 2016:

			Fair Market Measurements Using

Total investments measured at fair value	\$	65,695,105										

Debt and equity securities classified in Level 1 are valued using prices quoted in active markets for those securities.

The fair value of U.S. Treasury Securities at June 30, 2016 and 2015 was determined primarily based on level 2 inputs. The University estimates the fair value of these using other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.

Investments in Entities that Calculate Net Asset Value per Share

The University holds shares or interests in investment companies at where the fair value of the investments are measured on a recurring basis using net asset value per share (or its equivalent) of the investment companies as a practical expedient.

NOTES TO THE FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements (continued)

At year end, the fair value, unfunded commitments, and redemption rules of those investments is as follows:

NOTES TO THE FINANCIAL STATEMENTS

Note 4 - Fair Value Measurements (continued)

- (A) Equity funds invest in publicly traded securities listed in domestic, international, and/or emerging markets. This segment of the portfolio is intended to provide global growth exposure. Investments are diversified across market capitalization and geographic region.
- (B) Fixed-income funds invest in debt instruments of sovereign and/or corporate issuers. This segment of the portfolio is primarily focused on income generation. Investments are diversified across credit quality, market sector, and geographic region.
- (C) Balanced funds have the ability to invest in equity, fixed income, and real assets. The balanced segment is primarily focused on diversification and volatility mitigation via liquid tactical strategies providing exposure which may otherwise be difficult for the portfolio to obtain. The strategies are focused on providing an attractive absolute return at a reasonable level of risk.
- (D) Hedge fund of funds A fund of hedge funds is an investment vehicle whose portfolio consists of shares in a number of hedge funds. These strategies are typically diversified by manager and investment style and may include allocations to styles such as relative value, event-driven, hedged equity, and global macro, among others. Fund of hedge funds typically target an absolute return that is independent of market returns. Investments in this asset class are meant to provide a diversified alpha source. Holdings in hedge funds are recognized to be less liquid than public market securities and may include a lockup for initial investments. Risk in this asset class is specific to the strategy being utilized. The volatility of hedge funds of funds typically is similar to that of fixed income.
- (E) Opportunistic/Private equity Private equity is an ownership interest in a non-publicly traded limited liability company (LLC) or limited partnership (LP). The segment is primarily focused on providing global growth exposure. The segment may be diversified across a spectrum of markets, geographies, and investment styles. Investments in this asset class are illiquid and typically include multi-year investment horizons. Risk is specific to the strategy being utilized and may be above that of the general market.
- (F) The fair value of hedging derivative instruments classified in Level 2 at June 30, 2016 and 2015 was valued using available market inputs such as interest rates and yield curves adjusted for nonperformance risk that are observable at commonly quoted intervals.
- (G) For those assets with fair value measured using Level 3 inputs, the University determines fair value measurement policies and procedures in consultation with the real estate appraiser. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the observable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information. As of June 30, 2016 and 2015 the Income Capitalization method was used for determining the appraised value of the real estate.

The University has encumbrances of \$9,958,612 on various construction projects in progress as of June 30, 2016. Certain University facilities, including the Bruce T. Halle Library, John W. Porter College of Education, Boone Hall, Everett L. Marshall College of Health and Human Services Building, the William H. Smart Physical Plant, the Student Center, and the Pray-Harrold Building have been financed in whole or in part by State Building Authority ("SBA") bond issues which are secured by a pledge of rentals to be received from the State of Michigan pursuant to lease agreements between the SBA, the State of Michigan, and the University. During the lease terms, the SBA will hold title to the respective buildings, the State of Michigan will make all lease payments to the SBA, and the University will pay all operating and maintenance costs. At the expiration of the individual leases, the SBA has agreed to sell each building to the University for one dollar.

NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Long-term Debt

Long-term debt consists of the following as of June 30, 2016 and 2015:

NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Long-term Debt (continued)

On June 25, 2015, the University issued a \$155,000,000 Term Loan, Series 2015. This loan refunded \$75,000,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2012A, and \$60,795,000 of General Revenue Variable Rate Demand Revenue and Refunding Bonds, Series 2012B and issued \$19,205,000 on the term loan for new capital projects. In addition, the University received a premium payment on the term loan of \$3,569,650 for new capital projects. The 2015 Term Loan amortizes over 34 years with principal payments beginning March 1, 2021. The refunding resulted in a reduction of total interest payments of \$838,483 and an economic gain (difference between the present values of the interest payments on the old and new debt) of \$31,009.

On August 20, 2014, the University issued \$9,860,000 of General Revenue Refunding Bonds, Series 2014. These bonds refunded \$9,860,000 of General Revenue Build America Bonds, Series 2009D. 2014 Series bonds amortize over 14 years with principal payments beginning June 30, 2016. The refunding resulted in a reduction of total interest payments of \$5.9 million and an economic gain (difference between the present values of the interest payments on the old and new debt) of \$549,265.

On November 30, 2012, the University issued \$75,000,000 of General Revenue Variable Rate Demand Refunding Bonds, Series 2012A, and \$60,795,000 of General Revenue Variable Rate Demand Revenue and Refunding Bonds, Series 20012B. These bonds refunded \$125,795,000 General Revenue Variable Rate Demand Refunding Bonds, Series 2009A&B, redeemed \$1,685,000 Series 2000 Bonds, redeemed \$250,000 Series 2002B Bonds, and provided \$7,885,500 for capital projects. 2012 Series A&B bonds amortize over 37 years with principal payments beginning June 30, 2038 and June 30, 2037, respectively. The refunding resulted in a reduction of total interest payments of \$53.9 million and an economic gain (difference between the present values of the interest payments on the old and new debt) of \$3,119,479.

On June 10, 2009, the University issued \$102,380,000 of General Revenue Bonds, Series 2009C and 2009D, to fund capital projects. Series 2009C for \$23,160,000 are tax-exempt bonds. Series 2009D for \$79,220,000 are taxable issuer Build America Bonds authorized by Section 1531 of the American Recovery and Reinvestment Act of 2009. The University will receive payments from the Federal Treasury equal to 32.5% of the total coupon interest paid by the University.

As bonds are defeased, certain funds that will be paid to bondholders are deposited in trust and distributions are made by the trustee accordingly. The trust account assets and the liability for the defeased bonds are not recorded as assets or liabilities in the financial statements of the University. At June 30, 2016 and 2015, the aggregate amount of outstanding principal on all bonds which have been defeased is \$0 and \$0, respectively.

Certain debt agreements require student fees to equal or exceed 200% of the related debt service. The University is in compliance with these covenants.

Principal and interest on long-term debt are payable from operating revenues, allocated student fees and the excess of revenues over expenditures of specific auxiliary activities. The obligations are generally callable.

Subsequent to year end, on August 19, 2016 the University received \$20 million from a term loan agreement with Barclays Bank PLC for capital improvements. The University intends to issue tax-exempt bonds to refinance the term loan in fiscal 2017.

NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Long-term Debt (continued)

Interest Rate Swaps:

On June 25, 2015 the University entered into a Total Return swap transaction with Barclays Bank PLC in the notional amount of the 2015 Term Loan of \$155,000,000 plus a premium of \$3,569,650. The 2015 Total Return swap agreement wraps around the 2001, 2006 and 2009 swap agreements, which were established at the same time and for the same amount as the issuance of certain variable rate debt with the intent of creating a synthetic fixed rate debt, at an interest rate that is lower than if fixed rate debt were to have been issued directly. In addition, on June 19, 2015, the University refinanced the 2009 single-mini swap that is used to replace, over time, the amortizing notional amounts of the 2001 and 2006 swaps.

The June 19, 2015 refinancing of the 2009 swap and the June 25, 2015 refunding of the debt associated with the original swaps created a synthetic termination event. Interest rate swaps are classified as hedging derivative instruments, if the hedging instruments meet the criteria outlined in GASB 53, paragraph 27a and b, or as investment derivative instruments if they do not meet the criteria. Based on regression analysis, all but one of the swap agreements have been determined to be ineffective hedging derivative instruments as of June 30, 2016. All but one of the swap agreements were determined to be effective hedging derivative instruments as of June 30, 2015 and all of the swap agreements were determined to be effective hedging derivative instruments as of June 30, 2014.

Regression analysis evaluated effectiveness by considering the statistical relationship between the cash flows or fair values of the potential hedging derivative instrument and the hedgeable item. The changes in cash flows or fair values of the potential hedging derivative instrument substantially offset the changes in cash flows or fair values of the hedgeable item when certain criteria were met.

In accordance with GASB 53, these swaps are considered hybrid instruments consisting of a financing element (\$34,650,029 and \$40,057,143 for June 30, 2016 and 2015, respectively) and an embedded derivative ((\$21,261,077) and \$9,464,255 for June 30, 2016 and 2015, respectively). The financing element is reported as an interest rate swap liability that is being amortized over the remaining life of the original debt. The embedded derivative is reported as a fair value of derivative instrument asset or liability with an offsetting deferred inflow or outflow within the Statement of Net Position. The swaps considered no longer effective are treated as an investment at fair value. The deferred inflow or outflow at time determined ineffective is immediately recognized in investment income.

Due to the terms of the Total Return Swap that offset the original four swaps, the embedded derivative is further considered a hybrid instrument with a component considered at market and a component considered off market. The at-market component is still considered recorded at fair value with an offsetting deferred inflow or outflow. The off market component is considered a borrowing recorded at cost with a deferral that will be amortized over the remaining life of the original debt. The requirements of the accounting standard result in a dual presentation which is further outlined below as of June 30, 2016 and 2015:

<u>Credit Risk</u> The University is exposed to credit risk on hedging derivative instruments that are in asset positions. The terms of the swap agreement require collateralization of the fair value of hedging derivative instruments in asset positions based on a scale that evaluates both the market value of the swap and the counterparty's credit rating. The terms of the Total Return Swap of 2015 call for the University to post collateral to the counterparty under certain conditions tied to the prevailing rating of the University and the mark to market valuations of the swaps. As of June 30, 2016, \$24,500,000 million of collateral was posted. No collateral was required to be posted as of June 30, 2015. There is no exposure to credit risk on the hedging derivative instruments in liability position.

<u>Interest Rate Risk</u> The University is exposed to interest rate risk on its interest rate swaps. On its pay-fixed, receive-variable interest rate swaps, as LIBOR swaps decrease, the University's net payment on the swaps increases.

NOTES TO THE FINANCIAL STATEMENTS

Note 6 - Long-term Debt (continued)

Basis Risk The University is exposed to basis risk on its LIBOR-based swaps due to variable-rate payments received by the University on these instruments based on a rate of index other than interest rates the University pays on its variable-rate debt, which is remarketed every 30 days. In December 2012, the University amended a portion of the 2001 fixed payer swap by changing the received rate from Securities Industry and Financial Markets Association (SIFMA) to a percentage of LIBOR. This amendment effectively decreased the swap fixed pay leg from 4.72% to 4.465%. Additionally, this mitigates basis risk between the swap receiving leg and the variable rate resets of the 2012A and 2012B bonds. Since the 2001, 2006, and 2009 swap agreements receive a percentage of LIBOR from the counterparty and pay a percentage of LIBOR for the Series 2012A and 2012B bonds, basis risk is mitigated. As of June 30, 2016, the variable interest rate was 0.45%, whereas 68 percent of one-month LIBOR was 0.32%. As of June 30, 2016, 62 percent of one-month LIBOR plus 20 basis points was 0.76%. As of June 30, 2015, the variable interest rate was 0.19%, whereas 68 percent of one-month LIBOR was 0.13%. As of June 30, 2015, 62 percent of one-month LIBOR plus 20 basis points was 0.33%.

<u>Termination Risk</u> The University may terminate a derivative instrument on any business day and terminate and cash settle the instrument by providing prior written notice to the counterparty. Additional termination events will apply if either party fails to maintain the appropriate long-term senior debt credit ratings; or if the University fails to post collateral in accordance with the terms and conditions set forth in the ISDA Credit Support Annex.

Using rates as of June 30, 2016, debt service requirements of the variable rate debt associated with the 2001 swap agreement, 2006 swap agreement, and the 2009 swap agreement and net swap payments, assuming current interest rates remain the same for term, were as follows. As rates vary, variable rate bond interest payments and net swap payments will vary.

	Principal	Interest		Swap Interest		Net Interest			Net Principa and Interes		
2017	\$ 2,680,000	\$ 7,841,222	•	\$ 4,539,167	•	\$	12,380,389	_	\$	15,060,389

NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Retirement Benefits

Through December 31, 1995, the University offered participation in one of two retirement plans for all qualified employees: the Michigan Public School Employees' Retirement System ("MPSERS") and the Teachers Insurance and Annuities Association - College Retirement Equities Fund ("TIAA-CREF"). The MPSERS plan is further discussed in Note 8.

Defined Contribution Plan

TIAA-CREF is a defined contribution retirement plan. Substantially all full-time employees of the University are eligible to participate in the TIAA-CREF plan. Employee benefits generally vest immediately. The University contributes a specified percentage of employee wages, as defined by the appropriate labor contract. Average contribution rates were 10.0% and 10.2% for the years ended June 30, 2016 and 2015, respectively. Total covered payroll was \$131,316,000 and \$127,995,000, for the years ended June 30, 2016 and 2015, respectively. The University contributed approximately \$13,155,000 and \$13,012,000 for the years ended June 30, 2016 and 2015, respectively. The University has no liability beyond its own contribution under the TIAA-CREF plan.

The University provides termination benefits upon retirement resulting from unused sick days. The University calculates its sick pay liability in accordance with the provisions of GASB Statement No.16, *Accounting for Compensated Absences*. In 2013 the University modified the sick leave and short-term disability policy to eliminate sick leave accruals and retirement payouts for certain employees. In addition, the revised policy established a new short-term disability plan to provide income protection for certain employees unable to work for an extended period because of non-work-related illness or period of incapacity. The liability is approximately \$2,294,000 and \$2,432,000 as of June 30, 2016 and 2015, respectively. Approximately \$400,000 is included in accrued payroll, taxes, and fringe benefits for the years ended June 30, 2016 and 2015. The remaining portion is included in accrued compensated absences.

Other Postemployment Benefits

The University has a single-employer plan that provides certain healthcare (medical, dental, and prescription drug coverage) and life insurance benefits for retired faculty and staff. The plan covers 1,841 members as of July 1, 2015 for healthcare, 938 members for life insurance, and currently does not require active members to contribute to the plan.

Plan Description - Substantially all of the University's employees may become eligible for certain healthcare benefits if they reach retirement age while working for the University, are vested in a University-sponsored retirement plan, and their years of University service and age total a minimum of 70 - age 55 + 15 years of service or age 60 + 10 years of service. Eligibility for life insurance benefits are vested in a University-sponsored plan when of service and age total a minimum of 70 - age 55 + 15 years of service or age 60 + 10 years of service for certain employees or 60 - age 50 + 10 years of service for other employees.

Funding Policy - The plan requirements are established and may be amended by the University's management.

NOTES TO THE FINANCIAL STATEMENTS

Note 7 - Retirement Benefits (continued)

Annual OPEB Cost and Net OPEB Obligation - The University's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years. The following table shows the components of the University's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the University's OPEB obligation:

	2016	2015	2014
Net OPEB Obiligation - Beginning of year	\$ 2,712,000	\$ 1,808,000	\$ 904,000
Annual required contribution	928,000	1,224,576	1,166,000
Interest on net OPEB obligation	175,000	-	-
Adjustment to the annual required contribution	(215,000)		
Annual OPEB cost	888,000	1,224,576	1,166,000
Contributions made	(575,000)	(320,576)	(262,000)
Increase in net OPEB obligations	313,000	904,000	904,000
Net OPEB obligation - End of year	\$ 3,025,000	\$ 2,712,000	\$ 1,808,000

Funded Status and Funding Progress - As of July 1, 2015, the most recent actuarial valuation date, the plan was 0 percent funded. The actuarial accrued liability for benefits was \$9,887,000, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$9,887,000. The covered payroll (annual payroll of active employees covered by the plan) was \$118,874,000 for 2015 and the ratio of all UAAL to covered payroll was 9.0 percent for 2015.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and mortality. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan and include the types of benefits provided at the time of each valuation. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the July 1, 2015 actuarial valuation, the entry age actuarial method was used. The actuarial assumptions included a 6.45 percent investment rate of return (net of administrative expenses) based on the expected long-term investment returns on the University's own investments and a salary inflation rate of 2%. The UAAL is being amortized as a projected unit credit level dollar, closed on a 30-year basis. The remaining amortization period at June 30, 2016 was 26 years.

NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Contingencies and Commitments

In the normal course of its activities, the University is a party to various legal actions. The University intends to vigorously defend itself against any and all claims and is of the opinion that the outcome of current legal actions will not have a material effect on the University's financial position.

The University participates in the Michigan Universities Self-Insurance Corporation ("MUSIC"), which provides indemnity to members against comprehensive general liability, errors and omissions, and property losses commonly covered by insurance. MUSIC also provides risk management and loss control services and programs. Loss coverages are structured on a three-layer basis with each member retaining a portion of its losses, MUSIC covering the second layer and commercial carriers covering the third. Comprehensive general liability coverage is provided on an occurrence basis. Errors and omissions and property coverage are provided on a claims-made basis.

The University is also self-insured for workers' compensation, unemployment compensation and substantially all employee health benefits. Liabilities for estimates of losses retained by the University under MUSIC and reserves for claims incurred but not reported under self-insurance programs have been established.

Under current accounting standards, the University is required to estimate expected pollution remediation outlays, when specified obligating events occur, and to determine whether these outlays should be accrued for as a liability. As a result, the University has accrued an abatement liability for approximately \$57,000 and \$19,000 for the years ended June 30, 2016 and 2015, respectively.

Claims activity for the year ended June 30, 2016 is as follows:

	Claims incurred,							
	Liability - including changes in					Liability - End of		
	Beginning of Year		estimates	Claims Payments			Year	
Medical claims	\$	1,117,820	\$	24,736,698	\$	(24,725,931)	\$	1,128,587

NOTES TO THE FINANCIAL STATEMENTS

Note 8 - Contingencies and Commitments (continued)

The Federal Perkins Loan Program is scheduled to expire on September 30, 2017. As of June 30, 2016, the University has made \$1,706,658 in institutional capital contributions, which are reflected as part of the University's net position. Under current guidance issued by the Department of Education, at the time the University liquidates the loan portfolio and assigns the student loans to the Department of Education, the University will be forgoing its institutional capital contribution not yet received back through loan collections.

Note 9 – Michigan Public School Employees' Retirement System

Plan Description – The University participates in the Michigan Public School Employees' Retirement System (MPSERS or System), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the University: all hourly employees and some salary employees hired prior to January 1, 1996. Employees hired on or after January 1, 1996 cannot participate in MPSERS, unless they previously were enrolled in the plan at the University, or one of the other six universities that are part of MPSERS.

The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides post-employment health care benefits to retirees and beneficiaries who elect to receive those benefits.

The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the pension and post-employment health care plans. That report is available on the web at http://www.michigan.gov/orsschools, or by writing to the Office of Retirement System (ORS) at 7150 Harris Drive, P.O. Box 30171, Lansing MI 48909. In July 2015, ORS determined that MPSERS has two reporting units: universities and non-universities. Office of Retirement Services provided the universities a separate net pension liability. Separate pension information related to the universities reporting unit included in this plan is not available.

Contributions – Public Act 300 of 1980, as amended, required the University to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by State statute and may be amended only by action of the State Legislature. Under these provisions, each University's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

The University's contributions are determined based on employee elections. There are seven different benefit options included in the plan available to employees based on date of hire. The University contributes to MPSERS a percentage of member and non-member payrolls, determined by the plan's actuaries, for the unfunded portion of future pensions. Contribution rates are adjusted annually by the ORS. The range of rates are as follows:

	Normal	
	Pension	Unfunded
	Cost	Portion
July 1, 2014 – September 30, 2014	3.0%	16.61%
October 1, 2014 – September 30, 2015	4.8%	17.72%
October 1, 2015 – June 30, 2016	4.9%	20.26%

NOTES TO THE FINANCIAL STATEMENTS

Note 9 – Michigan Public School Employees' Retirement System (continued)

Depending on the plan selected, plan member contributions range from 0 percent up to 7.0 percent of gross wages. Plan members electing into the defined contribution plan are not required to make additional contributions. The University's actual contributions to the plan for the years ended June 30, 2016 and 2015 were \$4,817,034 and \$4,652,858, respectively. Contributions include \$706,663 and \$960,295 revenue received from the State of Michigan to fund the MPSERS Unfunded Actuarial Accrued Liability (UAAL) Stabilization Rate for the year ended June 30, 2016 and 2015, respectively.

Benefits Provided – Benefit provisions of the defined benefit pension plan are established by State statue, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit (DB) pension plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of service times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member.

Early retirement is computed in the same manner as a regular pension, but is permanently reduced 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Members are eligible for non-duty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death, and are determined in the same manner as retirement benefits, but with an actuarial reduction. Benefit terms provide for annual cost-of-living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. For some members that do not receive an annual increase, they are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

Net Pension Liability, Deferrals, and Pension Expense – At June 30, 2016 and 2015, the University reported a liability of \$75.5 million and \$50.9 million, respectively, for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2015 and 2014, respectively, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of those dates. The University's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2015 and 2014, the University's proportion was 13.76 percent and 13.56 percent of the universities reporting unit, respectively.

NOTES TO THE FINANCIAL STATEMENTS

Note 9 – Michigan Public School Employees' Retirement System (continued)

On September 30, 2015 the University received approximately \$14.3 million from the plan for a plan error in requiring excess contributions. The refund reduced the plan's net position and impacted the University's net pension liability as of June 30, 2016.

For the year ended June 30, 2016 and 2015, the University recognized pension expense of \$4,281,481 and \$868,798, respectively. At June 30, 2016 and 2015, the University reported deferred outflows of resources and deferred inflows of resources related to the plan from the following sources:

	June 30), 2016	June 30, 2015				
	Deferred	Deferred	Deferred	Deferred			
	Outflows of	Inflows of	Outflows of	Inflows of			
	Resources	Resources	Resources	Resources			
Changes of assumptions	\$ -	\$ -	\$ 1,515,870	\$ -			
Differences between expected and actual experience	1,036,528	-	-	-			
Net difference between projected and actual earnings on pension plan investments	218,536	-	-	(4,891,818)			
Changes in proportion and differences between University contributions and proportionate share of contributions	215,178	(1,394)	7,766	_			
University contributions subsequent to the measurement date	4,544,192		3,653,290				
Total	\$ 6,014,434	\$ (1,394)	\$ 5,176,926	\$ (4,891,818)			

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30	June	2016	June 30, 2015			
2016	\$	-	\$	300,682		
2017		994,904		(1,222,954)		
2018		(255,408)		(1,222,954)		
2019		(255,408)		(1,222,956)		
2020		984,760		-		
Total	\$	1,468,848	\$	(3,368,182)		

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year (2017).

NOTES TO THE FINANCIAL STATEMENTS

Note 9 – Michigan Public School Employees' Retirement System (continued)

Actuarial Assumptions – The total pension liability as of September 30, 2015 and September 30, 2014, is based on the results of an actuarial valuation date of September 30, 2014 and September 30, 2013, and rolled forward. The following actuarial assumptions applied to all periods included in the measurement:

Actuarial cost method: Entry age normal cost actuarial cost method

Assumed rate of return: 8.00 percent, net of investment and administrative expenses based on the

groups

Rate of pay increases: 3.5 percent

Mortality basis: RP-2000 Combined Healthy Mortality Table, adjusted for mortality

improvements to 2025 using projection scale BB

The actuarial assumptions used for the September 30, 2014 and 2013 valuations were based on the results of an actuarial experience study for the period October 1, 2007 to September 30, 2012. As a result of this study, the actuarial assumptions were adjusted to more closely reflect actual experience.

Discount Rate – The discount rate used to measure the total pension liability was 8.00 percent at September 30, 2014 and 2013. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions will be made at contractually required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

	Pla	an Year	Plan Year				
	Septem	ber 30, 2015	Septem	nber 30, 2014			
Investment Category	Target Allocation	Long-term Expected Real Rate of Return	Target Allocation	Long-term Expected Real Rate of Return			
Domestic Equity Pools	28.0%	5.9%	28.0%	4.8%			
Alternate Investment Pools	18.0%	9.2%	18.0%	8.5%			
International Equity Pools	16.0%	7.2%	16.0%	6.1%			
Fixed Income Pools	10.5%	0.9%	10.5%	1.5%			
Real Estate & Infrastructure Pools	10.0%	4.3%	10.0%	5.3%			
Absolute Return Pools	15.5%	6.0%	15.5%	6.3%			
Short Term Investment Pools	2.0%	0.0%	2.0%	-0.2%			
Total	100%	=	100%				

NOTES TO THE FINANCIAL STATEMENTS

Note 9 – Michigan Public School Employees' Retirement System (continued)

Sensitivity of the net pension liability to changes in the discount rate – The following presents the net pension liability of the University, calculated using the discount rate of 8.00 percent, as well as what the University's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (7.00 percent) or 1.00 percentage point higher (9.00 percent) than the current rate:

	1% Decrease (7.0%)	Current Discount Rate (8.0%)	1% Increase (9.0%)
University's proportionate share of the net pension liability – June 30, 2016	\$88,543,366	\$75,462,865	\$64,172,408
University's proportionate share of the net pension liability – June 30, 2015	\$63,680,076	\$50,881,674	\$39,853,419

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued MPSERS financial report

Postemployment Benefits Other Than Pensions (OPEB) - Under the MPSERS Act, all retirees participating in the MPSERS pension plan have the option of continuing health, dental, and vision coverage through MPSERS. The MPSERS Board of trustees annually sets the employer contribution rate to fund the benefits on a pay as you go basis. For the plan year beginning October 1, 2015, the university monthly contribution rate was 9.13% of both member and non-member payroll wages. For the plan year beginning October 1, 2014, the university monthly contribution rate was 10.53% of both member and non-member payroll wages. Prior to October 1, 2014 the university contributions were based on actual retiree insurance coverage and corresponding premium subsidy. The University's monthly contribution for retiree health care benefits aggregated to \$1,065,511, \$1,554,356, and \$2,466,573 during the years ending June 30, 2016, 2015, and 2014, respectively. Effective July 1, 2010 all active employees enrolled in MPSERS are required to contribute 3.0% of their pay toward retiree healthcare.

Under Public Act 300 of 2012, during the period February 1, 2013 through June 30, 2013 employees could elect out of the healthcare premium subsidy and into the Personal Healthcare Fund (PHF), depending upon their date of hire and retirement plan election. Members were given the choice between continuing the 3% contribution to retiree healthcare and keeping the premium subsidy benefit described above, or choosing not to pay the 3% contribution and instead opting out of the retiree healthcare benefit and becoming a participant in the Personal Health Care Fund (PHF), a portable, tax-deferred fund that can be used to pay healthcare expenses in retirement. Participants in the PHF are automatically enrolled in a 2% employee contribution into their 457 account as of their transition date, earning them a 2% employer match into a 403b account. The University's required contributions into PHF accounts were \$7,815 and \$8,801 for the fiscal years ended June 30, 2016 and 2015, respectively.

NOTES TO THE FINANCIAL STATEMENTS

Note 10 – Issued but not adopted accounting pronouncements

The Governmental Accounting Standings Board (GASB) has issued the following Statement for future implementation:

In June 2015, the GASB issued Statement No 75, Accounting and Financial reporting for Postemployment Benefits Other Than Pensions which addresses reporting by governments that provide postemployment benefits other than pensions (OPEB) to their employees and for governments that finance OPEB for employees of other governments

This OPEB standard will require the University to recognize on the face of the financial statements its Public School Employees Retirement Plan (MPSERS). The Statement also enhances accountability and transparency through revised note disclosures and required supplementary information (RSI). The University is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for periods beginning after June 15, 2017.

REQUIRED SUPPLEMENTAL INFORMATION

University Notes to Supplemental Schedules

Basis of Presentation:

The University utilizes four current and three noncurrent fund groupings for internal operating purposes, as follows:

Current Fund Groupings:

General Fund is used to account for general operating activities.

Designated Fund is used to account for funds designated by the University.

Auxiliary Activities Fund is used to account for services and facilities provided to students, faculty, staff, and the public and is managed to operate as a self-supporting activity.

Expendable Restricted Fund is used to account for funds restricted by donor or supporting agency.

Noncurrent Fund Groupings:

Student Loan Fund is used to account for transactions related to loans to students.

Plant Fund is used to account for transactions relating to investments in physical properties, indebtedness incurred in the financing thereof and reserves for maintenance, replacement, insurance, and debt service.

Agency Fund is used to account for amounts held in custody for students, University-related organizations, and others.

The eliminations on the Schedules of Revenues, Expenses, and Changes in Net Position by Fund represent the reclass of scholarship allowances as required by Governmental Accounting Standards Board Statement No. 35 - Basic Financial Statements and Management's Discussion and Analysis for Public Colleges and Universities.
