Monroe County Community College – AAS in Computer Programming
Eastern Michigan University – BBA in Computer Information Systems

Additional Information:

1. Course substitutions should be made with the guidance of an advisor or counselor to assure that requirements are met at each institution.
2. Students whose transcripts are endorsed as “MACRAO Satisfied” will only be required to meet EMU’s three general education requirements, noted with a “1” on the articulation guide and listed below. These may be completed at the most convenient time for the student, whether before or after admission to EMU.
 - a) A course in mathematical reasoning [MATH 162 at MCCC]
 - b) A US diversity or global awareness course [ENGL 240 or 255 at MCCC]
 - c) A learning beyond the classroom experience or course completed at EMU: [See COB Adviser]

To use MACRAO, students should request a MACRAO evaluation of their transcript from the MCCC Registrar’s Office. Students who do not satisfy MACRAO will have to complete all of EMU’s general education requirements.

3. Only courses with a grade of “C” or better (2.0 on a 4.0 scale) will be accepted for transfer to EMU. A course completed with a grade of less than 2.0, which is counted toward graduation at the community college, may be used to satisfy the MACRAO general education requirements. However, the course will not transfer and will have to be repeated if it is a requirement of the business major.
4. Under this agreement, EMU will waive the 60-hour rule and require that a minimum of 42 credit hours must be completed at the four-year college level, of which 30 hours must be at EMU, with 15 hours in the program/major. A minimum of 124 credit hours is required for graduation.
5. A minimum cumulative GPA of 2.0 is required for admission to EMU. Students with a community college GPA of 3.0 or higher will receive priority admission to the College of Business without a probationary semester. Students whose community college GPA’s are less than 3.0 may apply and be conditionally admitted to the College of Business for the first semester at EMU and will be regularly admitted after successful completion of at least 12 credits at EMU with a minimum overall EMU GPA of 2.5.
6. Students should contact the College of Business Undergraduate Advising Office early, before completing an admission application to EMU. To facilitate the evaluation of transcripts, students should enclose a copy of this articulation guide in their application to EMU and bring a copy to all advising sessions.

Effective Dates: September 1, 2007 until September 1, 2010.

If this agreement is not renewed at the end of the effective period students who have already begun the program will have an additional three years to be admitted to EMU under the terms of the agreement. WCC students who began the program prior to the effective date may use this agreement.
