### **Information Assurance Articulation Agreement Renewal**

The BS in Information Assurance and AB in Networking & Security Management articulation agreement with Lansing Community College is being revised and renewed. The January 1, 2010 until January 1, 2013 agreement is not available to students beginning the program at LCC in winter semester of 2013. The revised version of the agreement is in progress and will be posted on the website after it is finalized. For information about what to take at LCC for the new agreement, contact the EMU IA program coordinator below. Students who began this articulated program prior to winter 2013 may continue to follow the old agreement guide. Some course titles and numbers have changed. Students should contact the EMU program coordinator for help in completing the program at EMU.
