The BSW in Social Work articulation agreement between EMU and WCCCD has been revised and no longer includes the Mental Health program at WCCCD. As of January 1, 2012, no new students are accepted into the articulation agreement through the Mental Health program. Students may continue to access the articulation agreement through the AA in Pre-Social Worker program. Students who started the AAS in Mental Health program at WCCCD prior to January 2012 will have until August of 2014 to transfer to EMU to complete the Social Work program under the terms of the articulation agreement. In the event a student does not complete the EMU degree requirements within seven years of the date of original registration in the Mental Health program at WCCCD, the student may be required to use the requirements of a more recent catalog at EMU. Students should contact Dave Evoy, BSW Student Services Coordinator to plan for completion of the program at EMU.
