The evaluation must be reviewed in a meeting of the field instructor and the student (this could be during the regularly scheduled supervision session) and signed by both the field instructor and the student. The student’s signature does not imply agreement, only that the student has read the evaluation. In situations where the student disagrees with the evaluation the instructor may want to include the student’s view in context. If the student wishes to submit an addendum to the evaluation, that will be shared with the field instructor and become part of the student’s permanent record as well.
