

Scientific Discovery to Entrepreneurship Distinguished Speaker Series

Dr. Aaron Crumm Scientist and Serial Entrepreneur

Currently serving as the Entrepreneur in residence at UM's Center for Entrepreneurship, Dr. Crumm is a scientist and a serial entrepreneur. His doctoral work at the University of Michigan led to his founding of Ultra Electronics, Adaptive Materials, Inc. (AMI), an alternative energy market leader. Dr. Crumm's work has attracted more than \$50 million in contracts to support the growth of AMI. AMI has been recognized for its dynamic growth by Ann Arbor SPARK, FastTrack, Inc. 5,000, and Inc. 100 Energy Company awards. Dr. Crumm was also individually recognized as an entrepreneur with multiple awards including Executive of the Year in 2011.
