The committee reviewed a revised program for the Master's of Science in Quality.

The recommended changes are the result of 5 years of ongoing discussions. Changes have been needed to bring the program in line with recommendations from professional literature and the accrediting body. The revised degree will be both more competitive in the marketplace and more rigorous.

It was moved and seconded to approve all changes

The motion passed.

The meeting was adjourned. The next meeting would be held on October 25, if needed.

Respectfully Submitted,
Sue Stickel
