

# APPROVED MAJORS AND MINORS FOR SECONDARY CERTIFICATION

Secondary certification is for a person who wishes to teach grades 6-12 in his/her major and/or minor. A few majors include an endorsement to teach grades K-12. Those are marked accordingly. Michigan Test for Teacher Certification (MTTC) subject area tests in the major and minor will be required for certification.

Students pursuing secondary certification will choose one major and one minor. Subjects marked with an asterisk do not require a minor. Additional majors or minors may be chosen.

## Approved Teaching Majors
