

# Vantage Point – Mossy Oak Graphics

## Software Developer III

---

### **Job Description**

#### **Developer/Analyst Level**

This is a full time, Regular Employee position located in Auburn Hills/ Rochester Michigan.

This is a unique opportunity for a gifted developer to influence the business. Looking for somebody who is very apt to respond to requests by offering up solutions and features that the requester never dreamed of, adding automation, functionality, speed to market and value to the business and the customer.

This person would code software to adhere to a structure supporting our ecommerce and web to print business units. Standardize the quality assurance procedure for software. Oversee testing and developing fixes. Has knowledge of standard concepts, practices and procedures. Relies on experience and judgment to plan and accomplish goals with in practical time and budget. Would work under general business supervision, but will manage all aspects of IT related functions and needs for the organization. Manages IT vendor relationships and helps select partners. Must be able to handle multiple projects; developing a suite of websites for multiple brands. Has a degree of creativity and vision.

More specifically you would

- Develop/Test/Launch new features and improvements to our consumer facing, reporting and internal websites.
- Develop/Test/Launch new features and improvements to our backend search engine management platform.
- Be a part of the full life cycle of every project from design to launch and on to the next round of improvements.
- Pitch in to help with technical operations including monitoring jobs and server stability.

Needs experience developing web applications with Magento, PHP, MySQL, HTML, CSS, Javascript, and AJAX. Position also requires experience with web to print technology. Omniture, SAP Business, Google AdWords and email tools is a plus.
