EASTERN MICHIGAN UNIVERSITY Bloodborne Pathogen Program

CATEGORY A EXPOSURE DETERMINATION CLASSIFICATION FORM

Category 'A' personnel may be identified by their job classification. If all personnel in the classification do not qualify for the same category, additional qualifiers must be used (i.e. Professors and GA's for Gross Anatomy would be Category 'A' but not all Biology professors would qualify for this category.) If only one or two individuals in a classification qualify for the same category, individuals should be identified by name.
