EASTERN MICHIGAN UNIVERSITY

Bloodborne Pathogen Program

CATEGORY B EXPOSURE DETERMINATION CLASSIFICATION FORM

All personnel not listed as category 'A' should be listed by their job classification or name under Category 'B'. If all personnel in the given classification do not qualify for this category, a more specific classification must be used (i.e. Biology secretaries would qualify for this category but not necessarily all Biology staff would). If only one or two individuals in a classification qualify for this category, individuals should be identified by name.
