

President's Report
EASTERN MICHIGAN UNIVERSITY
Board of Regents
June 22, 2023

Madam Chair and Distinguished Members of the Board of Regents:

Nearly seven years ago, shortly after I became president of this great university, one of the first goals the regents and I established was to plan and complete a comprehensive fundraising campaign. The Give Rise campaign began that very year and will officially end on June 30th. Our initial goal was to raise \$100 million towards three of the university's most important priorities:

- Supporting each student's success;
- Advancing our programs of distinction; and,
- Helping students excel beyond the classroom.

Shortly after the announcement, I heard from many people who were skeptical that we would succeed in a fundraising effort of this magnitude. To say there were doubters would be an understatement.

As I sit before you today, I am pleased to report that we have not only met the goal of \$100 million but also exceeded it. As of today, we have collected more than \$118 million – and with eight days to go before the end of the campaign, we are striving to achieve my personal goal of \$120 million.

As many of you know, two weeks ago, we celebrated the upcoming close of the Give Rise campaign with a full house of more than 240 donors. The outdoor venue at the Ypsilanti Marriott at Eagle Crest was an ideal setting – and the performances by our students in forensics and theatre were dramatic and powerful, moving some attendees to tears. Special credit to the Advancement team members who worked on planning the event for more than a year to make it a truly memorable evening – particularly Kelly Quilter, Matt Mortier and Celia Murkowski.

It takes a lot of time, passion, and commitment to bring a campaign of this size and scope to life. Please join me in thanking the EMU Foundation Board of Trustees, the Give Rise Campaign Cabinet, and our Board of Regents have all generously and tirelessly supported this campaign from day one.

On the morning of the event, many of us had the opportunity to join executives from Toyota North America, Governor Gretchen Whitmer, and Congresswoman Debbie Dingell, as Toyota announced a \$10 million grant to the University as part of its Driving Possibilities initiative. Led by our dean of the College of Education, Ryan Gildersleeve, Eastern will partner with Toyota to establish a STEM Institute in collaboration with our local school districts to invest in stem education and workforce development.

While we are on the topic of gifts, the University received another tremendous commitment from GameAbove last week. The alumni-led philanthropic group announced a \$1.6 million gift to the GameAbove College of Engineering and Technology. The new commitment will

support the launch of a Cybersecurity for Embedded Systems initiative and establish a dedicated Cybersecurity Certificate Program that will cater to students and business professionals alike.

Earlier this week, GameAbove announced another special commitment to the University. In collaboration with EMU, GameAbove has championed the design, development, and dedication of a statue of George Gervin, the Detroit native, NBA Hall of Fame member, and EMU Hall of Famer. The sculpture will stand outside the George Gervin GameAbove Center. An unveiling ceremony will take place in August and we'll let you know the details. World-renowned American sculptor Benjamin Victor was commissioned to design the statue. Victor is the only living artist with three sculptures in the National Statuary Hall in the United States Capitol.

Please join me in congratulating the students and faculty members recognized earlier today with Sabbatical Leave Awards, Faculty Research and Creative Activity Fellowships, and Winter 2023 and Summer 2023 Undergraduate Research Stimulus Awards. I encourage you to learn more about the awardees and their research interests on the Board of Regents website.

I would like to acknowledge the bargaining teams involved in reaching a tentative agreement in the recent contract negotiations with the University's Food Service and Maintenance employees. The approximately 130 employees covered under the agreement are important and valued and make the University a better place for our students, faculty and staff.

In closing, I am pleased to welcome and introduce our new Vice President for Enrollment Management, Katie Condon. Katie has been with us for over three weeks and has hit the ground running. Katie is a native Michigander and previously served at West Virginia University. Welcome, Katie!

Additional information and accomplishments are listed in the appendix to this report on the University's website.

Thank you, Chair Jeffries.

James M. Smith, Ph.D.
President
