M.S. in General Clinical Psychology

Advance your career with a Master of Science in General Clinical Psychology.

Objectives
The General Clinical Masters' program operates within a theoretical framework that believes that, at its core, human functioning involves intra- and interpersonal processes that occur within a developmental context. The program’s coursework, clinical training, and research training emphasize an empirical framework in which clinical practice and science mutually inform each other. Within this context, the General Clinical Masters’ program has two overarching goals. The first is to train students in the practice of current, professionally accepted methods of psychological assessment and psychotherapy based upon various theoretical perspectives of personality and psychopathology. The successful student will be prepared for licensure and clinical practice at the master’s level in the state of Michigan. The second goal is to train students in the design and analysis of clinical research.

Program Requirements
The M.S. in Psychology (General Clinical) requires the completion of 45 hours of course work to be distributed among required core courses, assessment courses, professional practice/treatment courses, practicum courses, cognate courses, and elective courses as follows:

Required Core Courses: 9 hours

- PSY 600 - Psychological Statistics I 3 hrs
- PSY 646 - Personality: Theory and Research 3 hrs
- PSY 743 - Psychopathology 3 hrs

Assessment: 8 hours

- PSY 762 - Cognitive Assessment 4 hrs

One course from the following:

- PSY 770 – Self-report Assessment of Personality 4 hrs
- PSY 771 – Performance-Based Assessment of Personality 4 hrs

Professional Practice/Treatment: 10-11 hours

- PSY 731/751 - Interpersonal Processes in Psychotherapy/Prepracticum 4 hrs
- PSY 752 – Intrapersonal Processes 3 hrs OR PSY 720/791 Evidence-Based Therapies for Children and Adolescents/Prepracticum 4 hrs
- PSY 670 – Scientific and Professional Ethics 3 hrs

Practicum: 4 hours

- PSY 683 – Practicum in Clinical Psychology I 2 hrs
- PSY 684 – Practicum in Clinical psychology II 2 hrs

Elective Courses: 14-15 hours

14-15 hours selected from psychology courses within the department in consultation with a graduate adviser.

Up to six hours may be selected from outside the psychology department in consultation with a graduate adviser.

Practicum:

Students are required to complete a 500 hour practicum experience.

Program Total: 45 hours

Note:
* Students admitted to the general clinical program must obtain a B or better grade in all of the required core, assessment, and professional practice/treatment courses: PSY 646, PSY 670, PSY 731, PSY 743, PSY 751, PSY 752 and PSY 762. A student who receives a grade lower than B in any of these courses may elect to repeat the class in order to meet graduation requirements.

Check our program website for suggested course tracks:
emich.edu/psychology/programs/ms_gc.php
Basic Processes
- 620 Learning
- 626 Motivation and Emotion
- 629 Physiological Psychology
- 632 Sensation and Perception
- 633 Cognitive Neuroscience
- 635 Cognitive Processes
- 637 Social Psychology
- 640 Developmental Psychology

Assessment Courses
- 753 Individual Testing II (tests for children)
- 770 Self-report Assessment of Personality
- 771 Performance-based Assessment of Personality

Treatment Courses
- 720/791 Evidence-Based Therapies for Children and Adolescents
- 627/671 Behavioral and Other Evidence-based Psychotherapies
- 630/621 Behavioral Medicine
- 672 Modern Behavior Therapies: Theory, Research, and Practice
- 721 Treatment of Anxiety Disorders
- 722 Assessment and Treatment of Personality Disorders

Special Area Courses
- 551 Psychology of Death and Dying (Thanatology)
- 610 Neuropsychology
- 681 Special Topics (e.g., Anxiety Disorders, Personality Disorder)
- 723 Psychopharmacology
- 744 Child and Adolescent Psychopathology
- 888 Assessment and Treatment of Diverse Clinical Populations

Training Track
Each student is asked to select one of two tracks upon which to build his/her curriculum. These tracks are labeled the “scientist practitioner track” and the “practitioner scientist” track. The former is for students who plan to focus on research-oriented careers upon the completion of their master’s degree, while the latter is designed for individuals planning to obtain masters’ level licensure and employment at the completion of their degree. Please note the major curricular difference between the two is that students in the scientist-practitioner track are suggested to take Research Design (PSY 605) and Statistics II (PSY 601). Furthermore, students in this track are encouraged to become more engaged in research under the direction of a faculty member, while students in the latter track are encouraged to design their curriculum around their clinical interests. If you are unsure about which track to pursue, please talk with your advisor to determine which track is appropriate for you.

Assistantships
Graduate assistantships provide financial support (tuition scholarships and stipend) and experiential learning experiences. Consequently, these assistantships are highly competitive. They are normally available for up to two years (four enrollment periods) subject to the recommendation of an academic department and approval of the Graduate School.

- Full-time assistantships provide the following benefits:
  A. Up to 18 credit hours of tuition per fiscal year (Tuition benefits are prorated for part-time assistantships and for G.A.s beginning their appointments after the start of the semester).
  B. Parking permit for selected lots, library privileges and a

- 10% discount on purchases at the University bookstore.
- C. Stipend (about $9000 per year).
- D. Valuable teaching and research experience.

Admission Requirements
Priority consideration will be given to applicants who meet all of the requirements for graduate degree admission status listed below:
1. Meet the Graduate School admission requirements;
2. Complete the Graduate School application (online or paper copy available);
3. Complete a Department application (available on the department website);
4. Have an undergraduate GPA of approximately 3.0 or better on a 4.0 scale;
5. Have at least 20 hours in psychology, including statistics and experimental psychology;
6. Submit a transcript of GRE scores in which the scores for the verbal and quantitative sections is at least 50th percentile or higher; and
7. Present three letters of recommendation from faculty, employers or others who can testify to the applicant’s suitability for the program of study.

Incomplete applications may not be considered. Credits earned under non-degree student status do not automatically apply to the requirements of the degree program.

All application materials are due in on or before FEBRUARY 1 for the next Fall semester. There are no admissions to degree programs in the winter and summer sessions.

How to Apply
