

General Education Review Committee meeting of April 21st, 2014

At this meeting the committee examined the CAS program review model and agreed that it can serve the General Education review process. The Faculty Questionnaire will provide feedback within this model and existing data from the National Survey of Student Engagement (NSSE) and the Senior Exit Survey will be utilized with regard to student input. Data from IRIM will be integrated into the various components of the model.

A Doodle poll for a three hour committee retreat early in fall semester will be sent out during the last week of August.
