

General Education Review Committee meeting of October 1st, 2014

At this meeting the committee finalized review of the Instructor Questionnaire and the accompanying email. It was agreed that a link to the General Education Program in the current catalog would be included in the email and that the survey will be available for a two week period.

Subcommittees will meet before the next committee meeting to reshape the questions from the CAS Program Review Plan in a way that makes sense for the General Education Program Review.
