

Colleagues,

We invite you to participate in a questionnaire regarding EMU's [General Education Program](#). A group of faculty, evaluation specialists, and administrators are currently conducting a review of the General Education Program in line with the spirit of The Higher Learning Commission's outline for program review. The Higher Learning Commission model of review places faculty involvement in the process in a critical and key position. This questionnaire serves as one means of highlighting faculty in our current review.

The questionnaire should take you about 12 minutes to complete. The responses from this questionnaire are confidential and will serve a critical role in our overall review.

Thank you for your time and efforts in this important review.

Sincerely,

The General Education Review Committee:
