Class Description

Digital Fabrication is a beginner course offering students the opportunity to experiment with new tools and materials to build on their discipline-specific art practice. Students in all areas of concentration (2D, 3D, Photography/New Media, Graphic Design, and Animation & Gaming) are eligible to register for this course. The class will introduce students to a variety of techniques using 3D printers, 3D scanners, laser cutters, CNC milling machines, vacuum forming machines, and more.

Course Objectives

- Introduce alternative ways of thinking about art production
- Experiment with a variety of cutting-edge digital fabrication techniques
- Combine technology with traditional art practices to develop new methods of making

Location

*This class will be offered in the new Digital Fabrication Lab located in the Windgate Arts Complex. Exciting times.

Mud + Wood + Metal Summer 2025

May 30 – June 8 at the EMU Parsons Center

3 Credits!

AD3D 379 50227 – for undergraduates

AD3D 592 50234 – for graduate students

Join us this summer for **Mud + Wood + Metal**, a 10-day intensive course at the **EMU Parsons Center**, taught by Professors John DeHoog and Brian Nelson. The daily format will include lecture, demonstration, presentations, exploration of the 90-acre property, and time for working. During the 10 days, students will design and realize a significant project utilizing clay, wood, and steel that responds to their experience on the local site. Past projects have included sculptural objects, video, installation, performances, and ephemera. Students live on site for the duration of the class, housing is provided for a nominal fee. The Parsons Center is located a west of Traverse City in Lake Ann, Michigan. Included on site: a dining/meeting hall, bathroom/showers, dormitory, general studio/classroom, ceramics studio, and faculty house. Pre-requisite: AD 122 3D Design or comparable experience.

For more information contact Prof. John DeHoog jdehoog@emich.edu or Prof. Brian Nelson bnelson1@emich.edu
