## Artist's Workshop For Children ages 8-12

The Art Department at EMU offers **FREE** children's art classes to the community so that Art Education majors enrolled in ARTE 460 can gain valuable experience in teaching art to children before they begin student teaching in the schools. Teachers develop age appropriate lessons with the guidance of experienced art educator, *Dr. Cam McComb*. Come and make art with our talented teachers.

### Artistic Transformations

- |          |   |
