Independent Auditor's Report

To the Board of Regents
Eastern Michigan University

We have audited the basic financial statements of Eastern Michigan University as of and for the year ended June 30, 2010 and have issued our report thereon dated September 27, 2010. Those basic financial statements are the responsibility of the management of Eastern Michigan University. Our responsibility is to express an opinion on these basic financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements of Eastern Michigan University taken as a whole. The accompanying schedule of expenditures of federal awards is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The information in this schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Report on Internal Control Over Financial Reporting and on Compliance
and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*

To the Board of Regents
Eastern Michigan University

We have audited the financial statements of Eastern Michigan University as of and for the year ended June 30, 2010 and have issued our report thereon dated September 27, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Eastern Michigan University's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the entity's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses; therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a certain deficiency in internal control over financial reporting that we consider to be a material weakness and another deficiency that we consider to be a significant deficiency.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as Finding 2010-1 to be a material weakness.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as Finding 2010-2 to be a significant deficiency.

To the Board of Regents
Eastern Michigan University

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Eastern Michigan University's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Eastern Michigan University's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Eastern Michigan University's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the board of regents, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Plante & Moran, PLLC

September 27, 2010

Report on Compliance with Requirements Applicable to Each Major Program and on Internal Control Over Compliance in Accordance with OMB Circular A-133

To the Board of Regents
Eastern Michigan University

Compliance

We have audited the compliance of Eastern Michigan University with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010. The major federal programs of Eastern Michigan University are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Eastern Michigan University's management. Our responsibility is to express an opinion on Eastern Michigan University's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Eastern Michigan University's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Eastern Michigan University's compliance with those requirements.

In our opinion, Eastern Michigan University complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2010.

To the Board of Regents
Eastern Michigan University

Internal Control Over Compliance

The management of Eastern Michigan University is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered Eastern Michigan University's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the entity's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the board of regents, others within the entity, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Eastern Michigan University

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2010

Note 1 - Significant Accounting Policies

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of Eastern Michigan University under programs of the federal government for the year ended June 30, 2010. Expenditures reported on the Schedule are reported on the same basis of accounting as the basic financial statements, although the basis for determining when federal awards are expended is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. In addition, expenditures reported on the Schedule are recognized following the cost principles contained in OMB Circular A-21, *Cost Principles for Educational Institutions*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Because the Schedule presents only a selected portion of the operations of Eastern Michigan University, it is not intended to and does not present the financial position, changes in net assets, or cash flows, if applicable, of Eastern Michigan University.

Note 2 - Federal Loan Programs

During the fiscal year ended June 30, 2010, the University issued new loans to students under the William D. Ford Federal Direct Loan Program (FDLP). The loan program includes subsidized and unsubsidized Stafford Loans, Parents' Loans for Undergraduate Students (PLUS), and PLUS loans for graduate and professional students. The value of loans issued for the FDLP is based on, disbursed amounts. The undergraduate PLUS loans are applied first to the student's tuition and fees, and any remaining balance is disbursed directly to parents or, with the parents' permission, to the student.

In addition, the University participates in the Federal Perkins Loan Program through the Department of Education. This loan program is directly administered by the University and is considered a revolving loan program where collections received on past loans, including interest, and new funds received from federal agencies are loaned out to current students. The outstanding balance on these loans is disclosed in the schedule of expenditures of federal awards. The loans issued through this program during the year ended June 30, 2010 amounted to \$1,665,758.

Notes to Schedule of Expenditures of Federal Awards Year Ended June 30, 2010

Note 3 - Subrecipient Awards

Of the federal expenditures presented in the Schedule, federal awards were provided to subrecipients as follows:

Federal Program Title	CFDA Number	Amount Provided to Subrecipients
USDE: Training Content Area Teachers to Teach English	84.194	\$ 14,000
USCHCS/MCSC: IMPACT 09-10	94.006	34,763
NIH: Signaling Cascades, Allosterity and the Pyrimidine Pathway	93.859	3,415
U.S. Army: Cross National Analysis of Islam	12.300	74,617
USSBA/GVSU: Small Business and Technology Development Center, Region 9 Host, 2009	59.037	20,000
NSF: Stem year I	47.076	29,950
NSF: INTEROP LEGO	47.075	38,943
		\$ 215,688
Total provided to subrecipients		\$ 215,688

Eastern Michigan University

Schedule of Findings and Questioned Costs Year Ended June 30, 2010

Section I - Summary of Auditor's Results

Financial Statements

Type of auditor's report issued: Unqualified

Internal control over financial reporting:

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified that are not considered to be material weaknesses? Yes None reported

Noncompliance material to financial statements noted? Yes No

Federal Awards

Internal control over major program(s):

- Material weakness(es) identified? Yes No
- Significant deficiency(ies) identified that are not considered to be material weaknesses? Yes None reported

Type of auditor's report issued on compliance for major program(s): Unqualified

Any audit findings disclosed that are required to be reported in accordance with Section 510(a) of Circular A-133? Yes No

Eastern Michigan University

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2010

Section I - Summary of Auditor's Results

Identification of major programs:

CFDA Number(s)	Name of Federal Program or Cluster
84.007, 84.032, 84.033, 84.038, 84.063, 84.268, 84.375, 84.376	Student Financial Aid Cluster
Various	Research and Development Cluster
84.047, 84.217	Trio Cluster
84.287	21st Century Community Learning Center
84.334	GEAR-UP Program
84.394	State Fiscal Stabilization Fund Cluster
59.037	Small Business and Technology Development Center
17.261	Workforce Investment: Project Lead the Way and Education and Training Administration

Dollar threshold used to distinguish between type A and type B programs: \$366,569

Auditee qualified as low risk auditee? X Yes No

Eastern Michigan University

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2010

Section II - Financial Statement Audit Findings

Reference Number	Findings
2010-1	<p>Finding Type - Material weakness</p> <p>Criteria - University policy is to reconcile bank accounts each month. Outstanding and reconciling items are to be reviewed as part of the reconciliation process each month. In addition, individuals responsible for reconciling bank accounts should not have access to make journal entries in the general ledger.</p> <p>Condition - The University did not follow up and investigate outstanding and reconciling items on a bank reconciliation. The individual that was responsible for reconciling this account also had access to make journal entries in the general ledger.</p> <p>Context - Incident was noted for one of the University's bank accounts</p> <p>Cause - The accountant responsible for this reconciliation had various unsupported reconciling items, making the reconciliation appear to be reconciled. The general accounting and reporting manager reviews the bank reconciliation after the accountant prepares it; however, the reconciling items had not been questioned until it was noticed that they were not coming off of the reconciliation monthly.</p> <p>Effect - Material adjusting entries were made at the end of the year to reconcile this account.</p> <p>Recommendation - We recommend that all of the bank accounts be reconciled monthly to the general ledger and that all significant reconciling items be promptly investigated and adjusted with adequate explanations. In addition, an employee with bank reconciliation responsibilities should not have the ability to make journal entries. This provides an ineffective system of cash control because it permits the possibility of unauthorized transactions due to the lack of an adequate segregation of duties. Removing this access should significantly improve the system of checks and balances necessary for strong cash control.</p>

Eastern Michigan University

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2010

Section II - Financial Statement Audit Findings (Continued)

Reference Number	Findings
2010-1 (Continued)	Views of Responsible Officials and Planned Corrective Actions - Management has taken the necessary steps to get this issue resolved and the accountant's access to make journal entries in the financial system has been terminated.

Reference Number	Findings
2010-2	<p>Finding Type - Significant deficiency</p> <p>Criteria - The security department is responsible for access control for system production with limited update access to production to monitor security flow system.</p> <p>Condition - University database administrators have full administrative access and the ability to modify data within the system.</p> <p>Context - General IT control environment</p> <p>Cause - University database administrators have full administrative access and the ability to modify data within the system.</p> <p>Effect - An environment is created in which the security department could post transactions by manipulating access and control and granting additional access.</p> <p>Recommendation - We recommend the implementation of the application log review software. Additionally, an independent individual without administrative access should review the application logs and ensure that any transactions posted by administrators are appropriately authorized. The person performing the review should document who performed the review, the date, time, and scope of the review, any issues noted, and resolutions of those issues.</p>

Eastern Michigan University

Schedule of Findings and Questioned Costs (Continued) Year Ended June 30, 2010

Section II - Financial Statement Audit Findings (Continued)

Reference Number	Findings
2010-2 (Continued)	Views of Responsible Officials and Planned Corrective Actions - IT is currently reviewing application log review systems from Application Security Inc. and Oracle Corporation. Part of the evaluation process will be to determine what impact, if any, there will be on transaction processing throughout when logging is invoked. The results of the product evaluation process will be reviewed with the president's cabinet, along with a recommended implementation schedule. Separately, a non-IT individual will need to be identified to review the audit logs for compliance.

Section III - Federal Program Audit Findings

None
