¹ Satisfies EMU's Writing Intensive major requirement

² Satisfies EMU's Learning Beyond the Classroom requirement

Note: If 94 credits are not transferred, additional electives must be completed at EMU to reach the minimum of 124 credit hours required to graduate.

ARCHIVED TECHNOLOGY MANAGEMENT ARTICULATION GUIDE

Kirtland Community College – Approved Technical Programs
 Eastern Michigan University - BS in Technology Management

Additional Information:

1. Each institution will determine the satisfaction of their individual program and degree requirements. For the purpose of this articulation agreement, both institutions agree to accept transferrable courses from each other and from other institutions. Kirtland courses indicated with an * are required for EMU's BS in Technology Management. Substitutions for these courses must be approved by the EMU program coordinator.
2. Students with the MTA endorsement on their community college transcript have satisfied EMU's General Education Core Requirements and will be required to complete only the General Education Application Requirements of one "Perspectives on a Diverse World" course, one "Learning beyond the Classroom" experience, and a "Writing Intensive" course in the major. The Perspectives on a Diverse World requirement may be transferred to EMU.
To use the Michigan Transfer Agreement (MTA), students must have an official community college transcript, with the "MTA Satisfied" endorsement sent to EMU's Admissions Office. Students who do not have "MTA Satisfied" on their community college transcript, will be required to satisfy EMU's general education requirements as applied to transfer students. The MTA may be completed after admission to EMU, however, students should inform their advisors or they may be advised to complete additional courses for the general education program. Students who enrolled in college prior to September 2014 will have until the end of summer semester 2019 to complete the MACRAO agreement. If already on the transcript, the MACRAO designation will be accepted at EMU after August 2019.
3. Only courses with a grade of "C" or better (2.0 on a 4.0 scale) will be accepted for transfer to either institution.
4. Under this agreement, EMU will waive the 60-hour rule and require that a minimum of 30 credit hours must be completed in EMU courses, 15 hours of which must be in program requirements at the 300-level or above. Of the last 30 hours completed before graduating, a minimum of 10 credit hours must be in courses offered by EMU. A minimum of 124 credit hours, completed in-residence or accepted in transfer, is required for graduation.
5. Students must satisfy all admission requirements at the time of application for admission to EMU, including submitting transcripts from all previously attended colleges. Kirtland students will receive equal consideration with other students for course registration and financial aid.
6. Students are encouraged to contact EMU's Technology Management program coordinator before applying to EMU. To facilitate advising and the evaluation of transcripts, sign up for this articulation agreement using this link www.emich.edu/ccr/trackingsystem/Enter.php, and bring a copy of this articulation guide to all advising sessions.

Effective Dates: September 1, 2017 until August 31, 2020.

This agreement is consistent with the 2017-2018 catalog. Students have until Summer 2025 to graduate from Eastern Michigan University following this agreement. In the event that a student does not complete the program within seven years, they may be required to have their credits reevaluated using the requirements of the current articulation guide.
