EXERCISE SCIENCE ARTICULATION AGREEMENT GUIDE

Henry Ford College– AAS in Fitness Leadership
Eastern Michigan University – BS in Exercise Science

Additional Information:

1. In completing the coordinated program of study for this articulation agreement, course substitutions should be made with the guidance of the advisors at both institutions (indicated below) to assure that all requirements are satisfied. Each institution will determine the satisfaction of their individual program and degree requirements. Courses indicated with an * are required for EMU's Exercise Science Program. EMU will accept substitutes for HFC courses on the Guide that transfer as university electives or general transfer credit.
2. Students whose transcripts have the "MTA Satisfied" endorsement will only be required to complete one "Perspectives on a Diverse World" course, one "Learning beyond the Classroom" (LBC) experience, and a "Writing Intensive" course in the major. The Perspectives on a Diverse World course may be transferred to EMU. *To use the Michigan Transfer Agreement (MTA), students must have an official community college transcript, with the "MTA Satisfied" endorsement, sent to EMU's Admissions Office. Students who do not have "MTA Satisfied" on their community college transcript, will be required to satisfy EMU's general education requirements as listed in the Undergraduate Catalog. The MTA may be completed after admission to EMU, however, students should inform their advisor in order to receive appropriate advising.*
3. Only courses with a grade of "C" or better (2.0 on a 4.0 scale) will be accepted for transfer to EMU. Program major courses (including pre-candidacy courses taken at HFC) require a grade of "B-" or better.
4. Under this agreement, EMU will waive the 60-hour rule and require that a minimum of 40 credit hours must be completed at the four-year college level, of which at least 30 hours are in courses offered by EMU, with 15 hours in program requirements, at the 300-level or above. A minimum of 124 credit hours, completed in-residence or accepted in transfer, is required for graduation.
5. Students may apply for candidacy in the Exercise Science program when the following requirements are met:
 - a. Completion of all required and elective courses in the exercise science major with a grade of "B-" or better ;
 - b. Achieved an overall EMU grade point average (GPA) of 2.8 or better. Students entering directly from HFC, who have met the other requirements, may be admitted with an HFC GPA of 2.8 or better. Students must maintain a 2.8 GPA through the end of the program.
 - c. After achieving the above requirements, students must complete the candidacy application form.
6. Students are not allowed to complete the internship experience (EXSC 480) if their GPA falls below 2.8. Any required or elective course for this major completed with less than a B- must be repeated.
7. Students are encouraged to contact the Exercise Science program coordinator before completing an admission application to EMU. To facilitate advising and the evaluation of transcripts, [sign up for this articulation agreement](#) and bring a copy of the articulation guide to all advising sessions.

Effective Dates: September 1, 2015 until August 31, 2018. Extended through August 31, 2019.

This is an extension of a renewal of an agreement made in September 2008 and renewed in September 2012. Students who began this program prior to the new effective date have the option of changing to this guide. If this agreement is not renewed at the end of the effective period, students who already started the program will be given three additional years to be admitted to EMU under the terms of this agreement.
