

Orthotics & Prosthetics

CONGRATULATIONS CLASS OF 2023!

We are beyond proud of our graduating class. They have worked so hard to get to this point. They will be missed around campus but we wish them the best in their residencies and future careers!

Another congratulations to the first years making it through their first year of the program. From orthotic and prosthetic patient models to Frank's robot project to countless lab projects teaching them hand skills, they have all worked hard for their success so far!
