

Flights of Imagination

The summer camp program at EMU Children's Institute is a theme oriented, play-based program utilizing the HighScope Curriculum.

This program will reflect the Michigan Department of Education (MDE) grade level expectations for children going into kindergarten and first grade.

(June 12-June 16 early arrivals)

Session 1

Limited space available. Children will join the regular Summer I program offered at the Institute.

(June 19-June 23 early arrivals)

Session 2

Limited space available. Children will join the regular Summer I program offered at the Institute.

How Does Your Garden Grow? (June 26 June 30) Session 3

From seeds and sprouts come many things - flowers, plants, and food! We can plant, nurture, and watch as we create our own garden in the classroom and outside! What grows around our neighborhood? We'll go on walks to find out!

Fairy Tales & Fantasy (July 3-July 7)

Session 4

Those classic tales can continue to inspire us as we step into magical worlds! We can read, dance, and act out our favorite stories with props and puppets. Let's be inspired, can you create your own fairy tale? Where will your fantasy take us?

Exploration Space (July 10-July 14)

Session 5

Up past the clouds there's a whole other place...space! What does Mars look like? What do astronauts eat? Let's blast off to explore the planets, stars, asteroids, and more!

From Sea to Shore, Animals Galore! (July 17-July 21) Session 6

What prowls in the night? What flies through the air? What will we find beneath the waves? So many creatures to explore! Let's use books, scavenger hunts, and virtual trips to learn more!

I Spy Insects (July 24-July 28)

Session 7

From big to small, we'll explore them all! Wings and legs don't scare us, let's see what is hiding under the logs and leaves. Books will help us learn more as we explore the outdoors for our buzzing buddies.

Regie Veggie to the Rescue (July 31-Aug. 4) Session 8

Can broccoli be a superhero? It's definitely a super food! The rainbow will guide us as we explore and taste just how wonderful all those colorful fruits and vegetables can be. And don't forget the exercise - part of a balanced lifestyle!

Book Cooks (Aug. 7-Aug. 11)

Session 9

Reading can be such an inspiration, even for cooking! Let's see if we can replicate some of our favorite children's book foods. You know what they say - if you give a child a book, they may want a snack to go with it!

Jr. Mad Scientist (Aug. 14-Aug. 17)

Session 10

If you're into messy, slimy goo, then this is the week for you! We'll be mixing, pouring, squishing, and observing. Why do things happen? What will it do? You send in the Jr. Mad Scientist, we'll handle the rest!

Toddlers and preschoolers

Programs for toddlers and preschoolers are also available. Call 734.487.2348 for more information.
