

Vision: Ensure qualified graduates enter academic and professional roles by way of quality program offerings, professional/corporate experiences, and international opportunities.

Quality education

1. Offer relevant, dynamic, and contemporary course work/learning experiences.
2. Participate in Higher Learning Commission program assessment.
3. Where applicable, offer programs that are accredited or approved by an external agency.

Professional experience

1. Emphasize internship or co-op experience for students prior to graduation.
2. Expand internship/co-op placement options and explore innovative partnerships for active service learning.
3. Engage students in professional networking opportunities.

Global connections

1. Incorporate global awareness within courses and programs.
2. Offer study abroad experiences.
3. Explore global-context research opportunities.

Corporate partnerships

1. Expand network of corporate connections with annual program advisory board meetings.
2. Verify industry trends and new initiatives that can be incorporated in programs.
3. Seek external scholarships funded by corporate partners to support excellent students.
