

Great Job!!

This year, Dr. Bill Moylan, Associate Professor of Construction Management, enjoyed a truly remarkable experience. For two weeks, he was in Guatemala. For nine days, Dr. Bill was volunteering with the Habitat for Humanity Global Village in San Lucas Toliman. This Habitat volunteer experience was his first international build in the 25 years he has been associated with Habitat for Humanity.

Concurrent with his Habitat volunteering activity, Dr. Bill took advantage of his time in Guatemala to meet with the local PMI Chapter. On his way out, he presented a half-day seminar on “Preparing & Presenting Effective Project Proposals” in English for 35 PMI Guatemala Chapter members.
