

COT Student-Ambassador visits India to present COT programs, research

A College of Technology Ambassador and graduate student Ozlem Akdogan visited India during January 2017 to showcase COT programs and her research accomplishments. Ozlem is an international student from Turkey and currently a graduate student of Polymers and Coatings in COT.

- Visited two Universities in India to present COT programs in general and Polymers and Coatings in particular
 - Sardar Patel University (ISTAR Institute)
 - Hartcourt Buttler Technological University (HBTU)
 - Talked to several student groups and faculty, administrator and promoted our programs
 - Learned about educational system in India and how its different
 - Interacted with various faculty, staff and discussed possible collaboration with EMU.
- Attended an international conference in Thiruvananthapuram
 - MACRO conference on Polymer Science and Technology
 - Presented her original research – poster presentation.
 - Her poster was among the top 10 posters out of 600 posters presented
 - Was overwhelmed with the opportunities and encouragement she received for her research and for networking opportunities.
- Visited many places of site-seeing in India
 - Great experience of learning different cultures, food, meeting people
