

## **Policies for Acceptance and Transfer of FAA Flight Ratings, Licenses and Certificates from Other Institutions**

To maintain the integrity of the EMU flight major, and for flight safety, EMU policies for transfer credits of FAA ground schools, flight licenses, certificates, and academic course work are as follows.

**Acceptance of FAA Flight Ratings, Licenses, and Certificates** - Normally, only the Private Pilot license, and corresponding ground school will be considered for transfer credit. However, each case will be evaluated on an individual basis. Transfer credit will be awarded only after a thorough oral exam and flight checkout conducted by the Eagle Flight Centre. If the prospective student is found to be deficient, and after evaluation by the faculty and staff, the student must either take the prescribed courses or undergo remedial training to gain the required proficiency.

**For EMU students currently accepted in the Aviation Program** - Once enrolled at EMU, the Aviation Flight Program will not accept credit for any ground school or flight course (including the Private Pilot license) from any Fixed Base Operator (FBO) or flight school. Academic credit for aviation courses taken at other institutions will not be accepted into the EMU Aviation curriculum unless the Aviation Program Coordinator has granted prior written approval.

### **Transfer of Academic Courses from Other Institutions**

If academic courses are taken at other institutions prior to enrollment in EMU, Records and Registration will determine what courses transfer into the EMU Aviation curriculum.

Once enrolled in the EMU Aviation program, academic credit for aviation courses taken at other institutions will not be accepted into the EMU Aviation curriculum unless the Aviation Program Coordinator has granted prior written approval.
