

CRITICAL THINKING IN THE DIGITAL AGE

**TS 592 Special Topics (3 cr)
Winter 2019**

**Hybrid – Wednesday 5:30-8:00
Dr. Pilato (dpilato@emich.edu)**

This course includes tools for thinking critically in a digital age. Technology's changing literacy platform requires users to think smart about choices, challenges, and coherent outcomes. Problems of all sorts remain remarkably consistent but solutions are mediated by the relationship of technology and human ability to think critically with changing tools from one age to the next.

"The value of a college education is not the learning of many facts, but the training of the mind to think." Albert Einstein
