Fall 2019

CSIE 177L2: Scientific Presentation
CRN: 14299

1 Credit Hour- Wednesdays, 2:00-2:50 pm

Description

Students will evaluate science topics for clarity, accuracy, and misleading information using a variety of media sources including science periodicals, TV, and the web. Students will explore and analyze the use of podcasts in general and in the sciences in particular. Students explore the qualities that contribute to effective communication in the sciences. Student are introduced and paired with local scientists, shadow the scientist for a day, and create a podcast or other media to communicate a science related subject.

This course satisfies the Learning Beyond the Classroom (LBC) - General Education requirement.

General Education LBC approved
