

Handicap Parking Policies

Individuals who have the “Free Parking” yellow sticker in conjunction with a handicap placard issued by Michigan’s Secretary of State Office will be provided complimentary parking and will be granted access to all paid lots via an RFID access card at no charge. Individuals who do not have the ‘Free Parking” yellow sticker issued by the Secretary of State Office are responsible for paying applicable parking fees.

For parkers who have already been issued an RFID access card, you will simply need to submit another Handicap Access Card Application to ensure the card remains active in conjunction with your parking permit. **DO NOT** throw the card away – requesting a replacement after doing so will result in being charged a Lost Card fee.

Parkers who have purchased an on-campus parking permit and have a valid handicap parking placard obtained from the Secretary of State office can park in any handicapped parking spot on campus inside a permitted lot, regardless of lot type. This applies only to the handicap parking spots within the permitted lots and does not include handicap parking at metered spaces or within the guest lots (unless the individual obtains an access card). Individuals who wish to utilize the handicap metered or guest lot spaces can do so but will also need to pay the applicable rates.

More information on handicap parking policies can be found on the Park EMU website.
