

Campus cleaning

The University's facilities team continues its enhanced cleaning efforts across campus. They are concentrating on touch points (door handles, light switches, desk tops, etc.) and will cover all of campus before the currently scheduled employee return to campus on Monday, March 30, with on campus classes currently scheduled to resume on Wednesday April 1.

By Monday, March 16, bathrooms in the following buildings will have been power-washed and fogged with an electrostatic disinfectant: Porter, Marshall, Halle, Quirk, Pray-Harrold, Mark Jefferson, Strong, Sherzer, Hover, Briggs, Student Center, Rec/IM, Bowen and Alexander.

Public spaces that are used daily, such as Halle Library, the Rec/IM and the Student Center, will continue to receive daily cleaning and disinfecting.

The University has expanded its purchase of disinfectant wipes to distribute across campus. The demand for wipes locally and nationally is great and we are working to purchase and distribute as many as we can obtain.
