

2022-23 PROGRAM YEAR HIGHLIGHTS

Information about the statewide impact of the AdviseMI program

PROGRAM IMPACT

“MCAN is proud to support college advising in Michigan high schools, which helps more students explore postsecondary options and complete college-going steps. College is a game changer, and students need support from caring, highly trained individuals to help them overcome barriers to accessing postsecondary education, especially low-income students, first-generation college-going students, and students of color. We’re thankful for the support of our higher education partners who help make this important program a reality.” **RYAN FEWINS-BLISS, MCAN EXECUTIVE DIRECTOR**

Pictured are 2022-23 service members from AdviseMI, College Completion Corps, Michigan State University College Advising Corps, and Michigan College Advising Corps.

WHAT'S NEW IN 2022-23

- All seniors in partner high schools were given free access to the College Adviser Virtual Assistant, an AI-powered chatbot that nudges students to complete college-going steps and encourages them to connect with their college adviser.
- Advisers shared messaging and resources about the Michigan Achievement Scholarship with their students and schools, encouraging students to leverage this new opportunity to make college a reality.

EASTERN MICHIGAN UNIVERSITY PARTNER HIGHLIGHTS

- Number of applications from AdviseMI partner schools, submitted to your institution: **842**
- Number of applications from AdviseMI partner schools, accepted by your institution: **559**

Note: At the end of the AdviseMI program year, the status of many college applications was still “applied,” and does not reflect students’ final decisions.
