

# The George Liepa Sigma Xi Annual Speaker Series Endowed Fund Eastern Michigan University

## *Climate Change and Health: Research and Partnerships for Action.*

**Dr. Marie S O'Neill**

Dr. O'Neill is Associate Professor of Epidemiology and Environmental Health at the University of Michigan, School of Public Health. She has an M.S. in Environmental Health Sciences from Harvard University and a Ph.D. in Epidemiology from the University of North Carolina at Chapel Hill. She has worked for the U.S. Environmental Protection Agency, the Pan American Health Organization, in Mexico at the National Institute of Public Health and the National Center for Environmental Health, and as a Research Fellow in Environmental Epidemiology at the Harvard School of Public Health.

Her research interests include health effects of air pollution and temperature extremes; climate change and health; international health; and environmental equity. Dr. O'Neill's research has been funded by the Environmental Protection Agency, the National Institute for Environmental Health Sciences, the Centers for Disease Control and Prevention, and the National Science Foundation. Her current work includes evaluating heat waves and health outcomes; climate change vulnerability mapping, and a study of air pollution and birth outcomes among a cohort of pregnant women from Mexico City
