DIRECTIONS:

- Please complete all required information.
- Obtain the approval and signature of your supervising faculty member.
- Obtain the approval and signature of your Departmental Honors Advisor *only* if pursuing Departmental Honors.
- Return original copy to The Honors College prior to the semester in which you plan to complete your senior thesis.

Thesis Project Description*

Attach a one-page (minimum) proposal of your senior thesis project. Your proposal must include the following:

- The topic and scope of the project
- The proposed methodology (e.g. laboratory research, library or archival research, interviews, field work, etc.)
- Form of the completed thesis (e.g. a 40-60 page research paper, creative musical recital, detailed lab report)

Please note: All projects must include a written component that carefully documents the research or creative activity. Creative projects that do not reflect a traditional research format must include a context to help the reader understand the importance of the project and influences that helped shape your thinking as well as a reflection that helps others understand the importance of the project to you and next steps that might emerge in future work.
