

Description of my Study Abroad Program:

For 6 months I had the opportunity to study in the Netherlands where I had an adventure where I was able to explore parts of 8 different countries, travel over 10,000 miles, attempted hitchhiking, and met over 100 people from all over the world! The experience was a once-in-a-lifetime opportunity that changed my life forever.

Title: "Untitled"

Paris, France.

This photo is from a 3 day weekend trip to Paris, France I went on. Just outside the Eiffel Tower there is the wall of Peace, a memorial in Paris. Although, through the natural flows of wandering, lost, in a beautiful city- we found this memorial and the view of the iconic sight through this memorial was indescribable. Hence- Untitled. It was like a natural window to view this life changing sight. On the glass where "Peace" is written in dozens of languages from all over the world: international. I felt emotionally connected to this sight- relating to my time learning and living through the eyes of someone of another culture. Also- it's beautiful.
