**Course Overview**

This course provides an introduction to major theories and approaches in the study of international relations. The course considers the character of the international system, causes of conflict and war, foreign policy decision-making, determinants of economic development, and global environmental degradation. It also examines current issues such as terrorism, the protection of human rights, and globalization. At the end of this course the students should have had developed a basic level of awareness of the major ideas and approaches adopted in the field of International Relations.

This course is part of the General Education Program. Some of the objectives of this course are:-

- Explore specific global issues influencing diverse nations and/or cultures, along with their interrelations within the global community.
- Explore their own culture and cultural practices and how these relate to the cultures and cultural practices of others in the global community.
- Explore the social and historical dynamics that create and influence nations, governments, global alliances, and global conflicts.
- Explore the causes and consequences of social, cultural, and racial intolerance in the world.
- Analyze and synthesize information from diverse sources to make informed decisions regarding global issues.

**Materials**

There are two required texts available for purchase at campus bookstores or through any online vendor:

1. International Relations. 9th Edition. Joshua S. Goldstein and Jon C. Pevehouse. ISBN-9780205723904 (**G&P**)
2. International Politics: Enduring Concepts and contemporary issues, 10<sup>th</sup> Edition. Robert Art and Robert Jervis. ISBN: 9780205778768 (**A&J**)

An important component in understanding the ideas in global politics is being able to relate them to current political events happening across the world. Therefore in this class we will regularly be discussing world events and as students you should be aware of them. I would encourage that you should daily read a major newspaper (New York Times, US News etc). Another resource that you can use are websites of major news networks. ([www.cnn.com](http://www.cnn.com), [www. bbc.co.uk/news](http://www.bbc.co.uk/news), [abcnews.go.com](http://abcnews.go.com) etc.)

## **Course Requirements**

The class will involve a combination of lectures, assignments, discussions and presentations. My expectations for a student taking this course are that you regularly attend class, stay current with the Reading Assignments, and regularly read news coverage of International Relations current events. The class also has an emuonline link and all the class notes, assignment details, syllabus, group assignments etc. will be posted online. Students are required to access the emuonline to keep up-to-date with the class teachings. Two sections of the class will be taught online and the instructor will be available to interact with the students as he teaches the class. In case you have any problem accessing emuonline please inform the instructor in advance so that necessary corrective measures can be taken.

### *Policy Presentation (20% or 200 Points)*

As a part of this assignment all the students will be divided into groups. Each group would be given a major international incident taking place during the course of the semester, and they would be expected to analyze the issue, do critical analysis, and provide solutions that the international community can adopt to resolve that particular incident. At the end of the presentation, the rest of the class, along with the instructor will ask cross-examine the group members. ### *Class Participation and Attendance (10% or 100 Points)*

I will also keep attendance records for the course and attendance will be taken regularly in class. If you have more than 3 unexcused absences during the semester you will be penalized on your class participation and attendance grades.

Absences will be excused only in case of illness, family emergency, or any legitimate academic or university obligation. In case of absence due to illness a doctor's note from the University Health Center or your doctor would be required. If you must miss class, it is your responsibility to let me know of the circumstances of your absence, prior to the class period if at all possible. Your class participations grades will be determined based on your attendance in class as well as the quality of the presentation made by your groups on the country of your choice. Current University policy recognizes the rights of students to observe religious holidays without penalty to the student. Students will provide advance notice to the instructor in order to make up work, including examinations; they miss as a result of their absence from class due to observance of religious holidays. If satisfactory arrangements cannot be made with the instructor, the student

may appeal to the school director or head(s) of department(s) in which the course(s) is / are offered.

### *Academic Honesty*

I have a zero-tolerance policy for academic dishonesty and every student is expected to adhere to Eastern Michigan University's policy on academic honesty. If caught cheating on exams, turning in someone else's written work, or plagiarizing another's work you will fail this course. Academic dishonesty, including all forms of cheating, falsification, and/or plagiarism, will not be tolerated in this course. Penalties for an act of academic dishonesty may range from receiving a failing grade for a particular assignment to receiving a failing grade for the entire course. In addition, you may be referred to the Office of Student Conduct and Community Standards for discipline that can result in either a suspension or permanent dismissal. The Student Conduct Code contains detailed definitions of what constitutes academic dishonesty but if you are not sure about whether something you are doing would be considered academic dishonesty, consult with the course instructor. You may access the Code online at: [www.emich.edu/studentconduct/](http://www.emich.edu/studentconduct/).

I would like to emphasize that you should **not assume** what any of the policies imply. If you are in any doubt regarding any of the course policies I encourage you to come and talk to me. Furthermore you should **always check** with me whether it is acceptable to work together with another student on a project or assignment; until so assigned to by the instructor.

### *Students with Special Needs*

If you wish to be accommodated for your disability, EMU Board of Regents Policy 8.3 requires that you first register with the Students with Disabilities Office (SDO) in 240 EMU Student Center. You may contact SDO by telephone (734.487.2470). Students with disabilities are encouraged to register with the SDO promptly as you will only be accommodated from the date you register with them forward. No retroactive accommodations are possible.

### *Note on Grading Methods and Syllabus*

All tests and papers will be graded blind by the instructor. If a student would like to appeal the grading of a question, he or she should submit to the instructor his or her grievance in writing, explaining why he or she feels that the *given response* was inadequately assessed. The status of students' scholarship, potential entrance into law school / grad school will not be taken into consideration in grading.
