

We appreciate the work and comments provided by many stakeholders including the Faculty, Student Government and others. However, we remain steadfast in our support of dedicated efforts to improve educational outcomes for students throughout Michigan with a focus on Urban districts. Based on this and the ongoing efforts in Lansing to find an overarching agreement with respect to the Detroit Public Schools (DPS) and the Education Achievement Authority (EAA), we are postponing a vote on Eastern's involvement with the Education Achievement Authority. We remain optimistic and confident that this matter will be resolved in the near term.
